- > An upgrade from the original LED Pad. This fitting features the latest prismatic LED technology that includes a diffuser with an etched design, creating a perfectly consistent beam of light whilst maintaining a very high light output.
- > This fitting has been redesigned with a super thin depth of 7mm making it very discreet and a great option for kitchens without a pelmet.
- > This upgraded fitting also features a diffused panel of light that provides consistent illumination as no individual LED diodes can be seen.
- > The panel of light in this fitting is much larger than the original LED Pad allowing for an increased spread of light across the worktop.
- > Available in both cool white and warm white LED, choose the option which will work best with the work surface and kitchen style.
- > This fitting has a luminous efficacy of 88 lm/W.
- > Compatible with Sensio sensors and controllers.
