

# Linia Recessed Aluminium Profile

## Specification:

**Lengths:** 1000mm & 2200mm

**Finish:** Aluminium

**Use:** Under or inside kitchen or bathroom cabinets, inside larders or inside wardrobes

## What you require:

- Purchase the Linia recessed aluminium profile in a 1000mm or 2200m length
- Choose the flexible strip of your choice from the Sensio range
- The profile and flexible strip can be cut to length as required
- One set of end caps and mounting brackets are included. The 1m profile has 2 mounting brackets and the 2.2m profile has 4. If the profile has been cut you can buy additional accessories as required.

**For use in bathrooms use the Lumo IP Rated flexible strip light to offer additional protection and create a stunning focal point.**

furniture lighting solutions

## Key Selling Points:

- Our aluminium profiles have been specially redesigned with a wider width to house all of our single colour, RGB and Dual colour flexible strip lights from the Sensio range, allowing you to create your perfect lighting solution.
- The frosted plastic diffuser creates a beautiful diffused lighting effect.
- The diffuser material has been redesigned to be much more flexible so it is much easier to install.
- The Linia and flexible strips can be cut to length making this an extremely versatile solution – perfect when you have bespoke sizes to meet.
- End caps and mounting brackets are included, the end caps have been redesigned to be rounded for a much neater finish. The 1m profile comes with 2 mounting brackets and the 2.2m profile comes with 4.
- The 2.2m length is specially designed for tall cabinets and larders to make it even easier to install.
