

▶ TANDEMBOX antaro

The minimalist line – rectangular with a clear design all the way down the line

TANDEMBOX antaro has a clear, rectangular style – either with a gallery or as a closed box with a design element. All the components are colour-coordinated, thus accentuating the minimalist product design.

You also have the option of using the different opening support systems. SERVO-DRIVE, the electrical opening support system in combination with BLUMOTION, or TIP-ON, the mechanical opening support system.

Characteristic of the minimalist product design: the rectangular gallery

Design elements don't just provide closed containers but also give your kitchen character. Choose from Blum design elements made from glass or metal. Other materials are also possible, such as wood

All nylon components are matched with the relevant drawer side colour

The coordinated colour and material programme includes three steel variants: silk white, grey (white aluminium, RAL 9006) and terra black as well as stainless steel (Inox)

SPACE TOWER

- The larder unit is equipped with inner drawers, with shelves in the upper section
- Enough space and plenty of stability, even for large and bulky items
- ORGA-LINE inner dividing systems for pull-outs puts everything in order and allows easy access
- Up to 55 % more storage space through the use of higher back and side walls
- Allows access from all sides
- Includes integrated **BLUMOTION** for silent and effortless closing action, can be combined with **SERVO-DRIVE**
- Or with an integrated **TIP-ON** function for handle-less fronts
