Visit our Trade Counter

Printable order forms are available to download from:
www.hpponline.co.uk/downloads.

Order by 3pm for next day delivery on all stock items.

Trade Counter.

We welcome the opportunity to meet our customers, so why not come and visit our trade counter where dedicated trained staff are always on hand to help with any queries you may have.

How To Open An Account.

You can apply for an account with us online by using the form at:
www.hpponline.co.uk/accountrequest.

Alternatively you can simply download and fill in the application form from:
www.hpponline.co.uk/downloads and send it back to us by fax, post or e-mail.

How To Pay.

If you do not have a credit account with us, we will require payment before any goods are dispatched. We accept all major forms of credit & debit cards, cheques and cash.

Delivery.

The majority of orders can be delivered next day either on our own fleet of vehicles or by carrier. Alternatively goods can be collected from our trade counter.

Please note that manufactured door and cut to specification orders will be subject to lead times. You will be advised of the delivery date when you place your order.

Oldham Trade Counter.
Hill's Panel Products Ltd, Scottfield Road, Oldham OL8 1LA

> I've been ordering from HPP for around 6 years now and the service is excellent, the website is simple to navigate and you can order everything you need online at any time. The team are brilliant, very helpful if you need any information and will always look after you.

Our Mission.

Our mission is to make it **h**a**pp**en for the fitted furniture industry. Whether that's innovation and inspiration, or supply chain, operational and manufacturing excellence, we continually strive to support our customers' success through best-in-class products and service.

Our Core Values.

Service excellence
We pride ourselves on the excellence of our customer service. We listen to our customers, we treat them with respect, and we provide a quick resolution as and when an issue needs resolving.

People centric
Our people are our biggest asset. We are approachable, friendly, knowledgeable and, above all, professional. We are steeped in the philosophy that 'people do business with people'.

No quibbles!
We are true to our word. We deliver what we say we will do when we say we will – and this applies to products and service.

Always improving
We strive to be the best at everything we do and in everything we offer. We continuously improve the depth and breadth of our product range, our sales and supply processes and manufacturing capabilities – all in the best interests of our customers.

In tune with the environment
We value the environment and do everything within our gift to look after it. Our biomass plant burns 80% of our waste to heat our buildings, which means no fossil fuels are used on site. We have invested in solar panels and less than 1% of our waste goes to landfill, which is classed as zero by industry standards. Our vehicle fleet is clean air compliant.

Next Day Delivery Across Most of the UK!

Order by 3pm for next day delivery on all stock items.

Area Sales Managers

hpponline.co.uk

Our comprehensive website is your gateway to board, doors & fittings for furniture. Account holders can access a range of account management tools, create orders and quotations for every HPP product & service and access a host of support and visualisation tools.

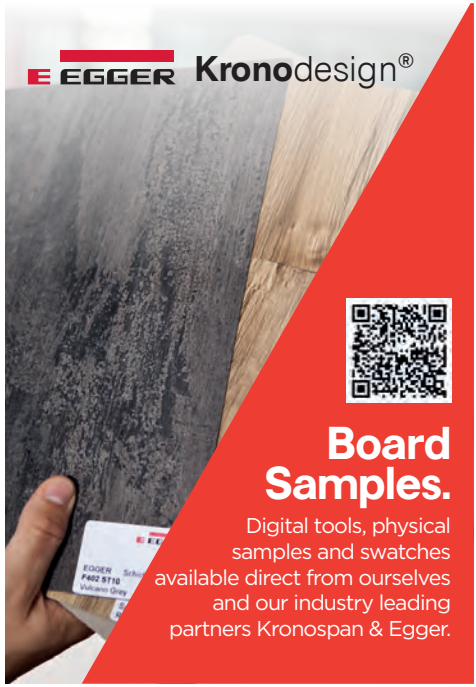
Unique Choice.

Unique Choice is the consumer facing brand for all HPP products. As we are a trade-only company, using Unique Choice allows us to separate what we do from what our customers do.

- 6 Year Guarantee on all Unique Choice products
- Comprehensive Kitchen & Bedroom brochures
- A brand you can use as your own
- Desktop, tablet & mobile friendly website
- Marketing materials

Door Samples.

We have a wide range of samples, swatches and marketing materials available for all of our door ranges.

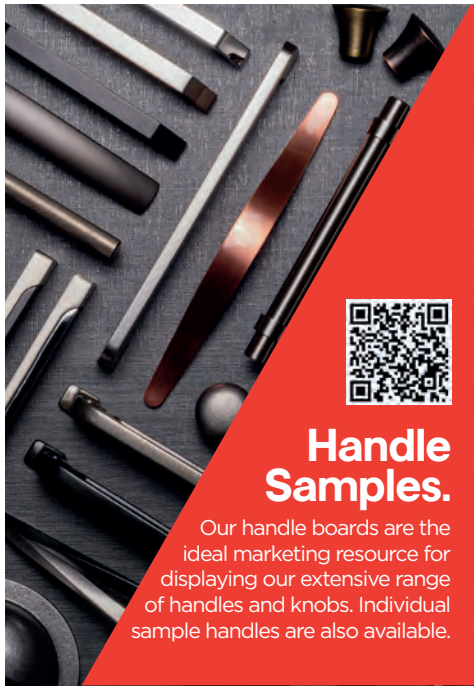


Board Samples.

Digital tools, physical samples and swatches available direct from ourselves and our industry leading partners Kronospan & Egger.

Worktop Samples.

Samples, stands and support tools for both the Egger Decorative Collection & Kronodesign ranges of worktops.



Handle Samples.

Our handle boards are the ideal marketing resource for displaying our extensive range of handles and knobs. Individual sample handles are also available.

Together with our key suppliers, we work hard to ensure that our range of doors, decorative board, worktops and KBB accessories are manufactured and distributed with environmental considerations at the forefront of everything we do; that the principals of a circular economy - Reduce, Reuse and Recycle - are upheld wherever possible.

Production Resource Recycling & Recovery

Less than 1% of our total waste output ends up in landfill; the rest is either recycled or recovered. Our dedicated team of employees is responsible for recycling, ensuring all waste streams are collected, separated & stored appropriately ready for collection by our recycling partners.

Our waste partners ensure that we are employing best practice and minimising the environmental impact of waste from our operations.

Renewable Energy Sources

We have solar panels installed on several of our warehouses, generating electricity for use on site, as well as feeding back into the National Grid.

Our biomass boilers reduce the waste we produce by 100s of tonnes per year. The heat generated is used in our manufacturing processes as well as heating our production areas, removing the need to use gas or electric.

Responsible Resource Management

HPP is certified by both FSC & PEFC, ensuring that we're part of an accountable supply chain, that the wood-based products we use & sell come from sustainable sources, responsibly-managed by socially ethical companies.

We've successfully made the change in packaging from protective polystyrene corners and edging to more sustainable options such as pulp.

We re-use supplier packaging where possible & work with our partners on ways to develop efficient packaging design using recyclable & sustainable materials, as well as reducing the need for repackaging.

Delivery Fleet & Onsite Vehicles

We have a policy to upgrade our delivery fleet and site-based forklift trucks to the most efficient engine options available, as well as transitioning our company car fleet to electric vehicles.

Efficient Tooling & Production

We have a proactive preventative maintenance programme ensuring that machines are running efficiently & issues such as compressed air leaks are promptly dealt with. Moving with the times, we also utilise AI to determine and monitor maximum yield parameters in our door production facilities, to ensure wastage from offcuts is reduced to a minimum, without affecting final product quality.

Sustainability is a conversation that we have with our key supply partners on a regular basis. By continuing to work together on new initiatives we will ensure that progress is ongoing.

In addition to our stocked products we have also developed several of our own brands which are exclusive to HPP and our customers.

Aspire. **Aspects.** **Avanti.**

Glide. **Unique Choice.**

Services.

In addition to our unrivalled range of products we also offer many bespoke services to offer even more flexibility, these include.

- Cut to specification MFC
- Edging service covering all the major edge banding programmes
- Comprehensive drilling and grooving service
- Doors made-to-measure at no extra cost
- Custom hinge hole drilling
- Door glazing service

People.

At the heart of every business should be its people, this is one area where we excel. Customers benefit from the continuity of highly trained and experienced staff. Continuous investment and training ensures our workforce is always motivated to provide the highest levels of service.

We strive to build long term relationships with every one of our customers, this ambition coupled with the unique one stop shop product offering and dedication to continuous improvement make us the ideal partner for your growing business.

All of which is backed up by our commitment to offer the best customer service in the industry.

Feelwood

Synchronised pore technology brings decors to life by matching woodgrain features with the surface texture, offering an authentic and cost-effective alternative to veneer. Matching products are available to create a high-end finish, including Eurodekor Faced Chipboard, Eurodekor Faced MDF, Laminate and Edging.

» Scan the QR code to find out more

PerfectSense®

Premium Gloss creates a high end look and feel with a mirror-like finish. Premium Matt provides a velvety smooth practical solution with anti-fingerprint technology. A highlight is EGGER's PerfectSense with a chipboard core, available across three luxurious matt textures, TM9, TM12 and TM28.

Quality for the lifetime of the furniture

Our goal is to ensure that our fittings systems provide comfort and function to furniture buyers for the lifetime of the furniture. All Blum products are engineered to provide for a problem-free-use of the furniture during its lifetime, which is up to 20 years. We achieve this goal by using the strictest internal guidelines that are basis for our ISO 9001 quality management system. We also use our own testing laboratory in conjunction with other international testing organisations to monitor the quality of our own products on a regular basis and observe how they are used in daily activities.

As a gesture of goodwill, and for consumers and furniture based in the United Kingdom, we will replace defective Blum products, by sending replacement parts free of charge to the address of this purchaser – as long as the original purchaser is in possession of the furniture, and it has been used only in domestic circumstances.To the fullest extent permitted by law, all other claims are excluded, including any related labour costs regarding removal of the defective product and/or installation of the replacement part. Improper use as well as improper operation or excessive loads are also excluded. Any claim for defective Blum products in furniture used for commercial purposes will be handled on a case-by-case basis. All electrical and electronic components are not included; however please refer to their separate, corresponding guarantees.

All services are provided without acknowledgement of any legal responsibility, are at any time subject to change without further notice and are subject to the standard terms of supply issued by Blum from time to time, which are available at www.blum.com/gb/en. To obtain the free of charge replacement you must provide us with the defective product, a short description of the problem as well as a copy of the proof-of-purchase within 30 days of the problem occurring.

ISO 9001 CERTIFIED QUALITY SYSTEM

ISO 14001 CERTIFIED ENVIRONMENTAL SYSTEM

Quality tailored to your needs

No matter whether you sell, incorporate, install or use Blum fittings on a daily basis - you have your own definition of quality. Blum quality is tailored to your needs, for their concept of quality is comprehensive: every touch point with Blum should offer benefits.
For everyone, ranging from furniture manufacturers to end users year in, year out.

Product and Service quality

As a manufacturer of fittings, Blum do a great deal to ensure that their products inspire users a furniture lifetime: they do research, conduct tests and carry out ongoing optimisations. For Blum, product quality is not just about design and function. Blum fittings suit a wide range of applications and can be assembled and installed with utmost precision.

Blum is not just a supplier of top quality products. They develop solutions that allow you to further enhance the quality of day-to-day operations. Make the most of their services and make individual jobs or even whole work steps simpler and more efficient.

Congratulations!

The furniture you have purchased contains Blum components which are guaranteed for the lifetime of your furniture.

If you have any problems with your Blum fittings please phone us on

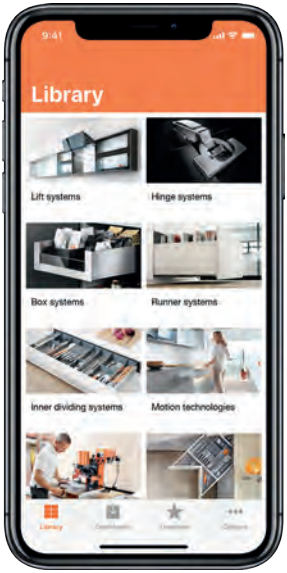
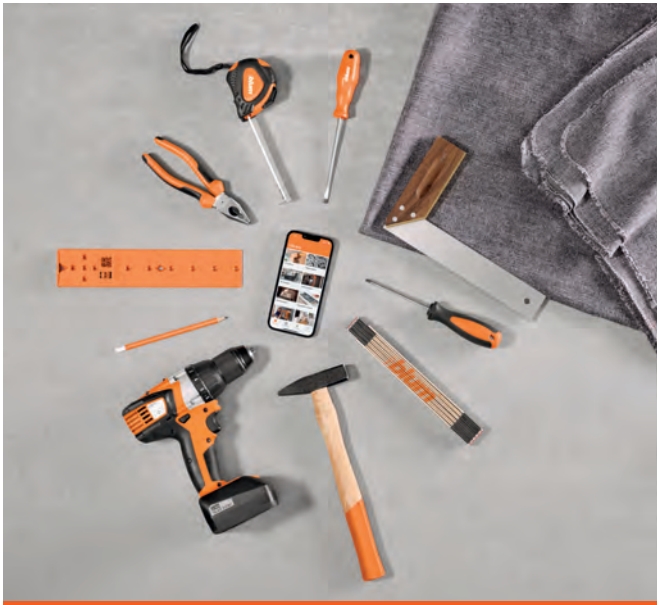
blum EASY ASSEMBLY app

Your digital assembly tool





You'd like to assemble and adjust Blum hinges, lift systems, pull-outs and other fittings systems quickly and efficiently? The EASY ASSEMBLY app for smartphones and tablets answers any questions you may have about the assembly and adjustment of Blum fittings. The app includes assembly instructions and assembly videos for all Blum products.

Download the EASY ASSEMBLY app now free of charge from the Apple App Store (for iOS) or Google Play Store (for Android) onto your smartphone or tablet.

Download on the App Store

GET IT ON Google Play

Up-to-date assembly and installation instructions at your fingertips. This saves time and ensures that furniture is assembled to the highest standard.

Interactive applications clearly indicate the right drilling positions and show you how to adjust Blum fittings.

Assembly videos demonstrate each individual work step and show adjustment options in detail.

EASY ASSEMBLY includes an overview of all assembly and installation instructions, arranged by product group. The assembly app has been designed to be intuitive, making it easy to use.

44 Antaro Non-Slip Drawer Mats

Lifetime Guarantee

Antaro Non-Slip Drawer Mats

Non-slip mats offer high convenience and added value for pull-outs, swing-out shelves and drawers in general.

- The slip-resistant surfaces safeguard objects from sliding about on opening and closing the drawers or when accessing the swivel shelves, as well as offering noise absorbing qualities.
- The material is high-grade synthetic rubber which meets the special quality standards of the kitchen industry (heat-resistant and food-safe) and moreover allows problem-free disposal.
- The Anthracite finish Canvas effect adds a design element on account of its stylish, linen-style texture.

Legrabox Non-Slip Drawer Mats

Agoform non-slip mats offer high convenience and added value for pull-outs, swing-out shelves and drawers in general.

- The slip-resistant surfaces safeguard objects from sliding about on opening and closing the drawers or when accessing the swivel shelves, as well as offering noise absorbing qualities.
- The material is high-grade synthetic rubber which meets the special quality standards of the kitchen industry (heat-resistant and food-safe) and moreover allows problem-free disposal.
- The Canvas adds a design element on account of its stylish, linen-style textured finish..

66 Blum Drawer Runners

Lifetime Guarantee

SCAN QR CODE for full product information.

Blum Space Step

The Blum SPACE STEP plinth solution: Enables access to the next storage level up in wall cabinets, as well as providing extra storage space in the toe kick of base units. The SPACE STEP plinth solution can be used to give access to worktops, washbasins and sinks. Can be used with BLUMOTION, SERVO-DRIVE, TIP-ON BLUMOTION and TIP-ON motion technologies. Creates additional storage space in the pull-out underneath the SPACE STEP. Activated by a weight of just 8 kg, the anti-slip system securely locks SPACE STEP in position when extended. The step surface can take a maximum load of 150 kg, provided the construction is suitable. The following box or runner systems can be fitted under SPACE STEP:

- LEGRABOX heights N, M, K
- MERIVOBOX in heights N, M, K
- TANDEMBOX in heights N, M, K
- MOVENTO
- TANDEM

SCAN QR CODE for full product information.

Blum Space Twin

SPACE TWIN: A practical solution for small storage spaces. Narrow cabinets turn tiny kitchen spaces into valuable storage. With its diagonally offset runners the SPACE TWIN creates additional storage space in the smallest kitchen space, ideal for storing bottles, chopping boards, spices and baking trays.

- SPACE TWIN can be used with TANDEMBOX and LEGRABOX box systems and the MOVENTO runner system.
- Can be used with other Blum motion technologies - SERVO-DRIVE, soft-close BLUMOTION and TIP-ON BLUMOTION.
- The narrow cabinet can be fully extended, providing easy access to all contents.
- The diagonally offset runners provide improved lateral stability and enable a high load bearing capacity of up to 20kg per base cabinet.
- Please note: Kits DO NOT include MFC base and backs

Blum Pull-Out Shelf Lock

Create additional flexible worktop and shelf space. Pull-out shelves are locked in position exactly where they are needed, be it in the kitchen, bathroom, living room or utility room.

- For use with MOVENTO or TANDEM full extension runners (available separately)
- Can be combined with TIP-ON BLUMOTION
- Two sided locking mechanism
- Synchronisation shaft allows unlocking with one hand

Pull-Out Shelf Lock

The pull-out shelf lock can be released with just one finger. Thanks to the synchronisation feature (using shaft ZST.1160W), the shelf lock only needs to be released on one side. Only compatible with MOVENTO 760H / 766H and TANDEM 560H / 561H

Servo-Drive Uno

The Servo-Drive Uno is especially useful for bottom-mounted waste bin pull-outs, which are opened and closed the most - providing an increase in the level of comfort that no kitchen user will want to do without. A light touch on the front with the hip, knee or foot is all that is required for the pull-out to open as if by itself - thanks to Servo-Drive Uno. The front remains clean and everything goes where it belongs. Even when closing, the pull-out closes securely and reliably, thanks to the Blumotion dampening function, regardless of the force used.

Code	Blum Part No
43428	Z10NA30BA

Servo-Drive Flex

Servo-Drive Flex, for the electrical opening of handle-less, standard built-in refrigerators, combination fridge/freezers, freezers and dishwashers. Requires 12W (Z10NA30BAF) or 72W (Z10NE04BA) transformer as applicable (sold separately).

78 Onyx Black Clip Top Blumotion Hinges

Lifetime Guarantee

Blum Onyx Black Clip Top Blumotion Hinges

Dark furniture radiates sleek elegance, so it makes sense to discreetly complement such pieces with equally elegant hinges in Onyx Black. Blum's range of hinges in Onyx Black create visual impact. They give a greater scope for designing fine furniture without compromising on form. Even when used on light-coloured furniture and cabinets, Onyx Black hinges and components provide a welcome contrast to the industry standard nickel-coloured options. Onyx Black hinges offer a high-class option, whilst retaining the features of the Clip-Top Blumotion range:

- Cabinet doors close silently and effortlessly with integrated Blumotion
- 3-dimensional adjustment
- Tool-free door-to-carcass assembly and removal
- Please note: when using with Bevelled edge doors (i.e. Oslo, Milano etc.) the Blum spacer (18308) could be required

Blum Standard Clip Top

WARNING: If you are using the 170° hinge in furniture that can be accessed by small children it should be noted that it is possible for small fingers to get in-between the working mechanism of the hinge. In these cases a 155° zero protrusion hinge could be used as an alternative or all relevant doors should be fitted with child safety latches. This warning should be passed on to subsequent users of the product.

- All metal hinge
- 3-dimensional adjustment

Blum Compact Face Fix Hinge

The face fix hinge offers a compact solution with the added benefits of quick and easy installation as well as including a self closing mechanism.

- Replaces the 33.3600 COMPACT hinge and backplate 133.0240. The new solution is a one-piece hinge and backplate
- On the door, the hinge only needs 11mm in depth for its boss hole as opposed to the 13mm for the COMPACT 33.3600
- Please note: This hinge requires special drilling which is not offered as part of our hinge hole drilling service

72721	Hinge side	970A1002

Blumotion Piston Adapters

Allows either Blumotion piston 970.1002 or 970A1002 to be mounted on a carcass.

Code	Type	Blum Part No
72407	In-line	970.5201
31959	Cruciform	970.550.01
44460	Cruciform (Expando)	970.55E1

Blum Aventos HF top

The impressive looking and easy-to-use AVENTOS HF top bi-fold lift system allows the implementation of large wall cabinets with bi-fold fronts. It gives a multitude of design options for high and mid wall cabinets. Narrow- or wide aluminium frames, different material combinations or asymmetrical fronts – everything is possible with AVENTOS HF top.

- Ideal for higher wall cabinets with bi-fold fronts
- Cabinet height 480–1200 mm
- Cabinet width up to 1800 mm
- Internal depth of at least 264 mm
- Integrated BLUMOTION adjustment feature for soft and effortless closing
- Light operating forces
- Variable stop
- Integrated opening angle stop
- Fixed position of the lift mechanism and front fixing bracket
- Symmetrical lever arm
- Tool-free assembly
- Two lift mechanism fixing methods
- 3-dimensional adjustment of both fronts
- Centre hinge with finger safety feature

Blum Aventos HF top Lifts

Power factor = carcass height (mm) x front weight including handle (kg). Minimum carcass depth for Aventos HF top is 264mm.

Code	Power Factor	Blum Part No
13232	2700-13500 (with 2 pieces)	22F2500
21084	10000-19000 (with 2 pieces)	22F2800

Blum Aventos top Cover Caps

Aventos top range cover caps sets: will fit HF top, HS top and HL top installations. Not suitable for Servo-Drive applications.

Lifetime Guarantee

Blum Aventos HS top

The AVENTOS HS top lift system exudes a sense of weightlessness. Large one-part fronts can be opened with the utmost ease. The lift system swings up and over the cabinet, giving easy access to storage items while preserving a gap between the front and cabinet top edge. A compelling feature that gives furniture design more scope – for example for integrating cornice or crown mouldings.

- Ideal for large, one-part fronts
- Cabinet height 350–800 mm
- Cabinet width up to 1800 mm
- Internal depth of at least 264 mm
- Integrated BLUMOTION adjustment feature for soft and effortless closing
- Light operating forces
- Variable stop
- Fixed position of the lift mechanism and front fixing bracket
- Symmetrical lever arm
- Tool-free assembly
- Two lift mechanism fixing methods
- 3-dimensional adjustment of the front

Blum Aventos HS top Lifts

Minimum carcass depth for Aventos HS top is 264mm.

Code	Cabinet Height	Blum Part No
07003	350 - 540mm	22S2200
68137	480 - 660mm	22S2500

Blum Technical Helpline: 0800 230 0898

Blum Aventos HL top

AVENTOS HL top is well suited for cabinets that are positioned above and on worktops: a lift system that gives full freedom of movement. The lift up fitting can be used in cabinets up to 580 mm high and 1800 mm wide. With a cabinet mounted on the worktop, electrical appliances can be concealed behind the front.

- Ideal for small one-part fronts
- Cabinet height 300-580 mm
- Cabinet width up to 1800 mm
- Internal depth of at least 264 mm
- Integrated BLUMOTION adjustment feature for soft and effortless closing
- Light operating forces
- Variable stop
- Fixed position of the lift mechanism and front fixing bracket
- Symmetrical lever arm
- Tool-free assembly
- Two lift mechanism fixing methods
- 3-dimensional adjustment of the front

Blum Aventos HL top Lifts

Minimum carcass depth for Aventos HL top is 264mm.

Recently I've been asked to advise HPP with their new handle collection. From reviewing current trends in the interior design world I've suggested a focus on warmer tones with gold, bronze and matt black finishes.

I've also encouraged handles with more texture; knurled and ribbed finishes are very much in fashion.

The new collection is a fabulous range. And I'm very proud that my hand-picked favourites are presented as the new designer collection.

Deborah Hill

Interior Designer and owner of My Secret House.

Gola Profile

The Gola Profile system offers a versatile and stylish alternative to traditional handles, allowing an aesthetic and functional solution for ultra-modern kitchens. These profiles enable the creation of handleless cabinets, providing a finger recess behind doors and drawers, so that they can be opened without handles.

- C Profile: For horizontal fixing between doors and drawers
- J Profile: For horizontal fixing under worktops
- Vertical Mid & End Profiles: For between larder doors & at the end of a panel
- Wall Unit Profile: For horizontal fixing under wall units

The Power of Lighting

Lighting can completely transform your space beyond the practical benefit it brings. It creates ambience, a brighter, more spacious and multi-dimensional feel and highlights design features.

Considering a lighting scheme at the initial design stages will influence the overall atmosphere of the interior space.

Creating a Lighting Plan

Light in layers
Splitting lighting into three categories from task to mood and convenience gives you the opportunity to layer your lighting. Start with task lighting around food preparation areas, transition into convenience lighting inside cupboards or drawers and then consider how mood lighting could create an ambient atmosphere.

Factor in the power
Creating multiple zones of lighting calls for power to different parts of the kitchen. It's much easier to install the wiring before the kitchen installation, so plan where wiring needs to be included so you can power the lights once installed. Think about the wall units, base units and the island unit if you want to create feature lighting under worktop edges or plinths.

Complement the kitchen design
Is the kitchen contemporary or traditional? Rustic or modern? This may help inform the style of fitting you choose but also the colour temperature of the lights. Warm white LEDs emit a yellow glow and complement a traditional style kitchen featuring wood surfaces and muted worktops perfectly, whereas cool white LEDs are more suited to contemporary style kitchens. The white light bounces off gloss or contemporary surfaces like granite for a mesmerising finish.

Get creative
Much more than a functional feature, lights can truly transform a space. Zoning the lights so they run from different switches really helps make the most of the space as you're in control of which lights turn on and when.

Consider the controls
Lighting elements can be controlled either together or separately depending on the kind of lighting you install and how the kitchen space will be used. For example, you may want all the under cabinet lighting to turn on together, you may want the kitchen cupboards to light up when the cupboard door is opened, or you may want to create a relaxing ambience with feature lighting switched on with the touch of a remote or smart phone app.

BREW

sensio
furniture lighting solutions

Choosing Kitchen Lighting

Kitchen lighting can be split in to three categories, with each offering its own purpose and benefits:

1. **Task Lighting**
   As the name suggests, task lighting is perfectly positioned to ensure the kitchen is an efficient working space for everyday tasks such as cooking. Typically, kitchen task lighting is positioned under wall units to illuminate the worktop, focusing light exactly where it is needed.

2. **Convenience Lighting**
   Convenience lighting illuminates cupboards, wardrobes and drawers when opened for ultimate ease of use, while adding a luxurious finish to the kitchen or bedroom design.

3. **Mood Lighting**
   Mood lighting creates depth and dimension, which is essential for creating atmosphere within a room. If you're looking to brighten the mood of the kitchen, consider lighting along the plinth, up-lighting above wall units, lighting beneath breakfast bars or the underside of a worktop and lighting the inside of glass fronted cabinets. Mood lighting is often overlooked, but one that can have a profound impact.

3

Custom Colour

The LED colour you choose can make a huge impact on the overall look.

Choosing the right lighting colour will boost the aesthetics of the design by complementing the chosen colours and materials.

Typically, LEDs are available as cool, natural or warm, and we use a measure called the Kelvin scale (K) to determine the temperature output of our lights.

Anything between 2500K and 3000K is considered warm, 3500K and 4500K is natural, while anything between 4500K and 6500K emits a cooler temperature.

Cool white LEDs are more suited to contemporary or modern styles. Cool white bounces off gloss or contemporary surfaces to create a stunning effect.

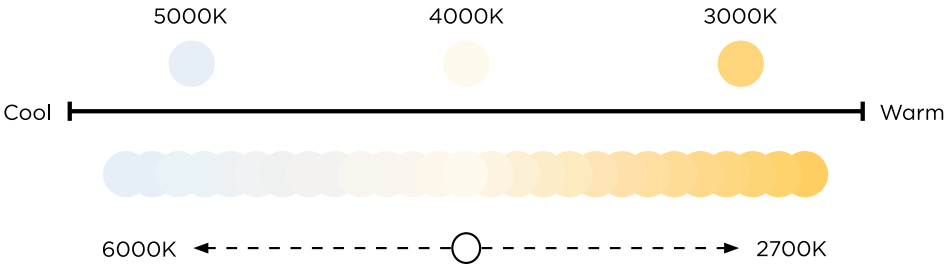
Natural white sits between warm and cool white and recreates the effect of natural daylight. Natural white's versatility means it can complement a range of styles.

Warm white LEDs emit a yellow glow (similar to that of a halogen) and perfectly complement traditional styles with features such as timber finishes and muted worktops.

TrioTone®

A Sensio trademarked concept first introduced in 2017, TrioTone® provides 3-in-1 lighting choice in one fitting. These diverse products are specifically designed to provide the option to select or change the colour temperature without having to replace the whole fitting.

Sensio TrioTone® products can be set to 3000K (warm white), 4000K (natural white) or 5000K (cool white).



CCT

Correlated Colour Temperature (CCT) is a concept that provides a seamless transition from warm to cool white temperatures.

CCT gives the user the power to cycle through the full spectrum of temperatures between cool, natural and warm light. This allows you to accurately mimic outside lighting conditions - a feature that has been scientifically proven to have a positive impact on our health.

amazon alexa Google Assistant

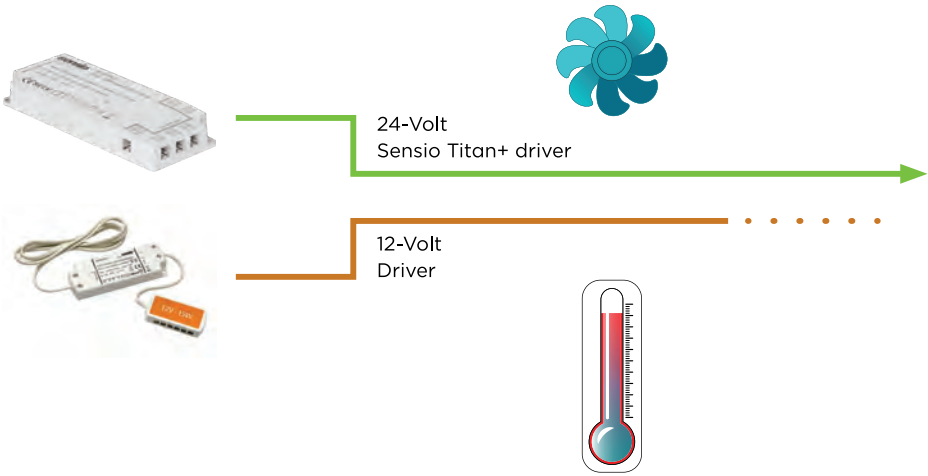
CCT products allow for advanced control via our Universal Remote & CCT receiver or Titan Smart Kinetic Driver paired with the kinetic switch, Link Sensio app or smart home device.

Technical Centre

Some lights present different options for installation, linking together and control. These pages, alongside the detailed information around choosing the correct driver found on **pages 184-186**, will make the process of selecting and installing our lighting as simple as possible.

12-Volt vs. 24-Volt Lighting

All Sensio lights are 24-volt, offering a number of benefits over alternative 12-volt solutions.

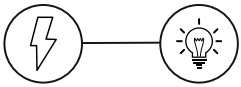


Less voltage drop
24-Volt allows for longer runs of light with no loss of power or brightness over distance.

Stays cooler
24-volt lighting dissipates less heat and stays cooler over time. This means more efficient lights which don't overheat.

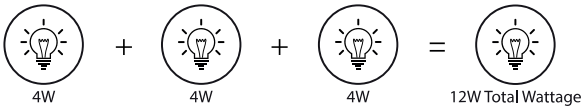
Up to 75% more efficient
For a given power wattage, a 24-volt Sensio product will consume 50% less current than the 12-volt equivalent, offering up to 75% more efficiency when factoring reduced heat loss.

Power

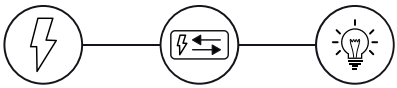


240V Products
240 volt products can either be plugged into a power socket or wired directly to the mains.

Please note: The majority of 240V products do not come with a pre-wired plug.



Wattage and LED Drivers
The number of lights that an LED driver can power is determined by the wattage, so it is important that the driver selected has an adequate wattage for the lights. The appropriate LED driver can be easily found by calculating the total wattage of all lights in the run. The total wattage should not exceed the rated wattage of the LED driver.

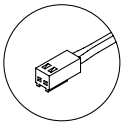


24V Products
24V is significantly lower than the mains electricity that comes into our homes. Our low voltage products require an LED driver that converts the voltage from 240V to 24V.

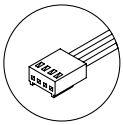
All our 24V products are Plug & Play - this means they plug directly into the LED driver without the need for an electrician.

Daisy Chain Products
To make installation as simple as possible, some of our products can be linked together in a daisy chain. This is a great way to extend the range of an LED driver in a long run of lights. Especially when powered with a higher voltage, such as 24V.

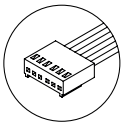
Connectors



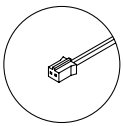
2-Pin
The most-common type of connector in the Sensio range and compatible with all drivers (with exception of the CCT Titan Smart Kinetic Driver). This type of connector is also compatible with the Single Colour Receiver.



4-Pin
These are found on our CCT products and are compatible with Titan Smart Kinetic Drivers and the CCT Receiver.



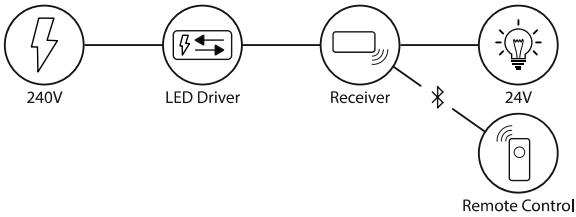
6-Pin
These are found on our RGBCCT products and assist in the control of both colour temperature and RGB in compatible products.



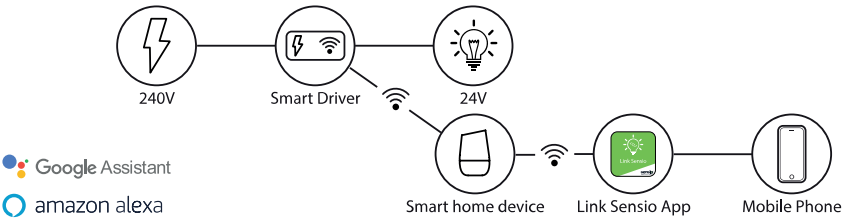
Quick Connect
This port enables the driver connection cable to plug directly into the back of the lamp, simplifying installation.

Lighting Control

Receivers and Remotes
Receivers and remotes allow for additional lighting control such as dimming, changing colour temperature and RGB. These can be added to most Sensio products.



Smart Products
Smart Drivers allow Sensio 24V products to connect to smart home devices such as the Google Assistant and Amazon Alexa via the Link Sensio App, adding smart lighting control. **See more on pages 185 & 186**.



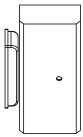
Sensors & Switches

Infrared (IR) sensors
IR sensors are used to control lighting with close-range hand gestures.
Example: waving to turn your lights on/off.

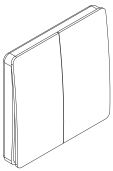
Passive infrared (PIR) sensors
PIR sensors are used to control lighting when somebody enters the detection range.
Example: entering a room.

Gate / door sensors
Gate (or door) sensors are used to control lighting with the opening and closing of doors.
Example: opening a cabinet or drawer.

Push switches & touch sensors
Push switches are used to control lighting with the push of a button.



Magnet and reed switch
A magnet and reed switch is used to control lighting with the opening and closing of doors. Multiple switches can be set up to control the same set of lights. It is also wireless.



Kinetic switch
Kinetic switches are used in conjunction with the Titan Smart Kinetic drivers or mains 240V kinetic receiver, to offer the freedom of wireless control. The switches require no additional power or installation and offer advanced control such as dimming and colour adjusting when configured with CCT lights. 1, 2 and 3 gang switches available.

sensio furniture lighting solutions

Sensio LED Lighting Products are covered by their 5 Year Guarantee.

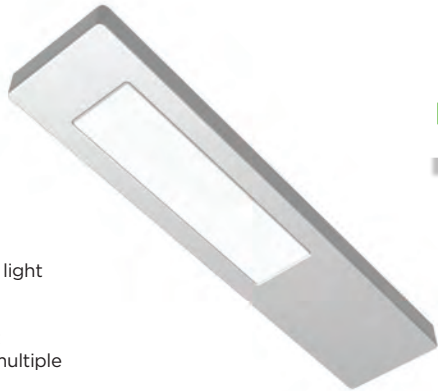
Horizon TrioTone™ LED Light

- A contemporary, slimline, under cabinet spot light
- TrioTone¨ switch allows the selection between cool white, natural white or warm white, concealed under the front bezel
- Simple to install
- Removable, magnetic bezel conceals fixings for a sleek finish
- Innovative etched design completely diffuses light – no visible LED dots
- Superb lumen output for a flood of light
- Compatible with Sensio switches, single-colour receiver and dimmable driver

CABLE LENGTH: 1.5 metres



SCAN QR CODE for full product information.

Ark LED Light

- An elongated design offers a vast spread of light across worktops
- Fully diffused lens - no visible dots
- High number of LEDs for bright light output
- Easy installation using daisy chaining to fit multiple lights into one area
- Compatible with Sensio switches, single-colour receiver and dimmable driver

CABLE LENGTH: 2.5 metres

SCAN QR CODE for full product information.

Apex TrioTone™ LED Light

- Slimline design
- Stainless steel finish
- Magnetic mounting plate installation conceals fixings for a clean finish
- Removable collar allows for both surface mounting and recessed fitting
- Ideal for under cabinet lighting
- TrioTone™ technology allows selection of cool, natural or warm white
- Diffused LEDs
- Superb light output – CRI : 90
- Compatible with Sensio switches, single-colour receiver and dimmable driver

Magnum Rechargeable LED

The Magnum rechargeable battery cabinet light has a rechargeable lithium-ion battery and an integrated PIR sensor.

- Battery is rechargeable using the integrated USB port (USB cable included)
- Has an on/off switch to save the battery capacity when the unit is not in use
- Integrated PIR sensor enables the unit to stay lit when movement is detected, or when the cabinet door is opened
- If no movement is detected the unit will switch off after 10 seconds
- Simple installation via a self adhesive magnetic plate
- Magnum light can be easily removed from the magnetic plate for charging purposes
- Diffused cover
- Rapid battery charge time (<2 hours)
- Battery duration: 6 months - based on 2 mins of usage per day

Sensio LED Lighting Products are covered by their 5 Year Guarantee.

Radiant Pro CCT Diffused LED Flexible Strip

A diffused, Correlated Colour Temperature (CCT) strip allows the perfect light temperature selection and transition from warm to cool white temperatures.

- No visible LED dots
- Discreet, slimline 4mm width
- Driver connection cables pre-soldered at either end of the strip so two lengths can be used from the same reel if required
- Cut marks are indicated every 50mm on the back of the strip
- Ideal for a flush, recessed finish with a simple push-fit application
- Can be surface mounted with the use of the mounting brackets
- Supplied end caps provide a clean and IP rated finish to cut ends
- Able to navigate around curves on island units and cabinetry
- Compatible with Sensio CCT Receiver and Remote Control, or Titan Smart Kinetic Driver to control, zone and dim the lights
- Supplied in a 5m reel

Razor Edge-Lit Recessable Flexible Strip

A super-slim evolution of the fully diffused Polar COB strip.

- Thin 2mm depth creates a discreet appearance while providing superb light output
- Narrow channel for routed installation can easily be made with a simple saw cut
- Excellent thermal conduction resulting in a cool running strip
- 24V allows long runs of light without any light fade
- Supplied with pre-soldered, driver connection cables at both ends
- Can be cut to length (at 31mm intervals) with both ends of the strip being utilised
- Supplied with VHB tape pre-applied

Ion 8 CCT LED Flexible Strip

Successor to the popular DuoFlex flexible strip, Ion 8 is the new and improved CCT flexible strip. Requires the Sensio CCT receiver (SE771990) and Universal Remote Control (SE770390) to control and dim the lights.

- Over four times the number of LEDs per metre than its predecessor, Ion 8 greatly reduces the appearance of visible LEDs providing a premium light output
- Correlated Colour Temperature (CCT) allows the perfect light temperature selection and transition from warm to cool white temperatures
- Can be cut to length (every 50mm) and the whole reel can be utilised with the Ion Joining Clips (sold separately)
- VHB (Very High Bond) adhesive tape backing for secure installation
- Supplied in a 5m reel
- Compatible with the Universal Profile range (Beam, Contour, Linia and Fino)
- Flexible strip option only (SE10855P0) requires the Sensio CCT receiver (SE771990) and Universal Remote Control (SE770390) to control and dim the lights
- Smart Kit (SE10855PS1) includes 30W Smart driver & 2.5m driver connection cable
- Remote Kit (SE10855P1) includes a 30W driver, receiver and remote control

Ion 5 CCT LED Flexible Strip

Cousin to the wider Ion 8, Ion 5 benefits from a slimmer width at just 5mm. Requires the Sensio CCT receiver (SE771990) and Universal Remote Control (SE770390) to control and dim the lights.

- A high number of LEDs per metre greatly reduces the appearance of visible LEDs providing a premium light output
- Correlated Colour Temperature (CCT) allows the perfect light temperature selection and transition from warm to cool white temperatures
- Supplied with pre-soldered, 1.5m driver connection cables with a 4-pin connector at each end of the strip
- Can be cut to length (at 50mm intervals) with both ends of the strip being utilised (additional cut-offs cannot be reused)
- Compatible with Sensio CCT receiver and Universal Remote Control to control zone and dim the lights
- VHB (Very High Bond) adhesive tape backing for secure installation
- Flexible strip option only (SE10755P0) requires the Sensio CCT receiver (SE771990) and Universal Remote Control (SE770390) to control and dim the lights
- Smart Kit (SE10755PS1) includes a 30W Smart driver
- Remote Kit (SE10755P1) includes a 30W driver, receiver and remote control

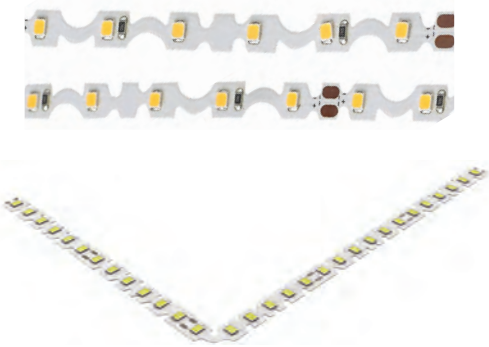
Neutron Nano 3.5mm LED Flexible Strip

- Measures only 3.5mm in width
- An ideal choice for kitchen designs where inconspicuous lighting is essential
- Highly compacted diodes greatly reduce the appearance of dots whilst providing a powerful light output
- Cut marks every 25mm enable the strip to be cut closer to the desired length reducing potential dark spots at each end
- Driver connection cables pre-soldered at either end of the strip
- Compatible with Sensio single-colour receiver to enable dimming functionality
- 3M VHB (Very High Bond) tape underneath the strip for secure installation
- Supplied in a 5m reel



Sigma 2 LED Flexible Strip

An innovative bendable flexible strip that handles corners with ease.

- A unique PCB board cut in a 'zig-zag' shape provides superb flexibility allowing the light strip to bend around a corner
- Can be bent around 90 degree corners without the need for corner cables or starting a new run of strip
- The entire reel can be used with cut marks indicated every 50mm avoiding wastage
- Cut sections can be re-utilised with the joining clips and leads (sold separately)
- Compatible with Sensio single-colour receiver to enable dimming functionality
- Supplied with 3M VHB (Very High Bond) adhesive tape backing for secure installation
- IP20 rated - protected against solid objects over 12mm (e.g. fingers)
- Supplied in a 5m reel
- Kits include lead and 30W driver

SCAN QR CODE for full product information.

Radiant Diffused LED Flexible Strip

A diffused, bendable, silicone flexible strip light ideal for application across the kitchen or bedroom.

- No visible LED dots
- Discreet, slimline 4mm width
- Driver connection cables pre-soldered at either end of the strip so two lengths can be used from the same reel if required
- Cut marks are indicated every 50mm on the back of the strip
- Ideal for a flush, recessed finish with a simple push-fit application
- Can be surface mounted with the use of the clear mounting brackets (6 supplied with 3000mm and 10 supplied with 5000mm reels)
- Supplied end caps provide a clean and IP rated finish to cut ends
- Able to navigate around curves on island units and cabinetry
- Compatible with Sensio dimmable receivers
- Supplied in a 5m reel (3m reel available in Natural White only)

SCAN QR CODE for full product information.

Flux RGB CCT LED Flexible Strip

A fully customisable, flexible strip light to suit any style, mood or atmosphere. Requires the Sensio RGB-CCT receiver (SE770990) and Universal Remote Control (SE770390) to control and dim the lights.

- A combination of RGB and CCT provides the ultimate colour changing solution enabling colours to be mixed and matched to create millions of combinations
- Features 24 pre-set RGB colours and 11 shades of white (CCT)
- Colours can be set individually or RGB colours can be mixed with the CCT colours to create a multitude of different shades
- Each colour can also be dimmed to achieve further customisation
- A high number of LEDs per metre significantly reduces the appearance of individual points of light
- Cut marks are indicated every 142.5mm on the back of the strip
- VHB (Very High Bond) adhesive tape backing for secure installation
- Supplied with driver lead attached to both ends
- Starter kit includes a 30W driver, receiver and remote

Viva 3 LED Flexible Strip Lighting

A versatile flexible light strip that can be used in multiple areas of the kitchen or bedroom including under cabinet, plinths or inside wardrobes.

- Strip can be cut once and the cut off section used with a cut joining connector
- Can be cut to length every 50mm
- Male and female ends for simple installation
- Supplied with 3M VHB (Very High Bond) adhesive tape backing for secure installation
- IP54 rated - limited ingress of dust and protected against sprays from any angle
- Supplied in a 1m, 2m or 5m reel (Natural White in 1m and 2m only)
- 2.5m Driver Connection Cable (SE10314) is required to run the Viva 3 (sold separately if not bought as part of a kit)
- Kits contain a run of flexible lighting strip, a suitably rated driver and a 2.5m Driver Connection Cable (SE10314)

Polar Pro CCT COB Flexible Strip

- Completely diffused with no visible LED dots eliminating the need for a profile or cover
- Correlated Colour Temperature (CCT) allows for light temperature selection and transition from warm to cool white temperatures
- Chip on Board (COB) technology provides superior light output
- Compatible with Sensio CCT receiver and Universal Remote Control to adjust light temperature and enable dimming functionality
- Supplied with pre-soldered, 1.5m driver connection cables with 4-pin connectors at each end of the strip
- Can be cut to length (at 31mm intervals) with both ends of the strip being utilised
- Supplied in a 5m reel
- VHB (Very High Bond) adhesive tape backing for secure installation
- Compatible with the Universal Profile range

Polar COB Flexible Strip

A high performance light designed to provide a completely uniform light line where individual LED dots are not visible, eliminating the need for an aluminium or plastic profile with a diffused cover.

- Chip On Board (COB) LED technology for long life
- Energy saving (high lumens per watt ratio)
- Compatible with Sensio single-colour receiver to enable dimming functionality
- Easy to install with the supplied high-quality 3M VHB adhesive backing tape
- Can be cut at 31mm marked intervals and the full reel can be utilised regardless of the number of cuts with the use of Sensio Clip Connectors eliminating any wastage
- Supplied with a 1.5m driver connection cable at each end of the strip with a JB4 connector, eliminating the possibility of wrongly connecting the strip
- Please note: this product has a rating of 6W per metre. Select a suitably rated driver for total length to be used i.e. a full 5 metre run of strip lighting will require a 30W driver

Primo 5M Clip LED Flexible Strip

- Cut and reconnect up to 50 times!
- This customisable flexible strip allows several areas of a room to be illuminated using just one strip
- Supplied as a 5m reel
- The strip can be cut every 100mm: scissor marks on the product indicate where it's suitable to cut
- The strip has connection points every 100mm. When cutting the strip and reconnecting or connecting the first strip; slide the strip into the clip connector so the connectors sit under the 2 prongs and push down the clip head. (Ensure the polarity is correct)
- Each reel is supplied with 3M self-adhesive backing and silicone fixing clips for secure installation
- Starter kits include a 30W driver
- 2.5m Driver Connection Cable (SE101080) is required to run the Primo (sold separately)

Cool White Warm White

Solinas Black Pendant Light

A striking crushed crystal, matte black industrial style cylindrical pendant light. Ideal for both the kitchen and bathroom to light over kitchen islands or bathroom vanity units.

- Perfect for both single or cluster implementation
- Offers diffused illumination through its crystalline ring and underside lens
- Available in both cool and warm white with a replaceable GU10 LED bulb
- Suitable for use with a wall dimmer
- Suspended on a 1.4m black cable from a matte black ceiling mount
- IP44 rated - protected against solid objects over 12mm (e.g. fingers) and protected against water drops at a 15 degree angle from the vertical

Zirconia Cone Pendant

Can be used as a single light or as a cluster with two or three fittings.

- Features 24 integrated LEDs (not dimmable)
- LEDs have a long lifespan of 30,000 hours
- Pendant is suspended on a 920mm adjustable stainless steel cable
- IP44 rated - suitable for use in the bathroom (zone 2 areas or outside of zone 2)
- Dimensions: L 1200mm x W 120mm (cable length is 920mm)
- The mains cable is not supplied with this product

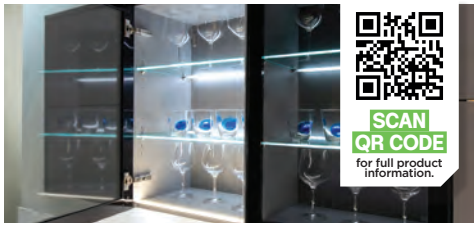
Verso HD LED Drawer Light

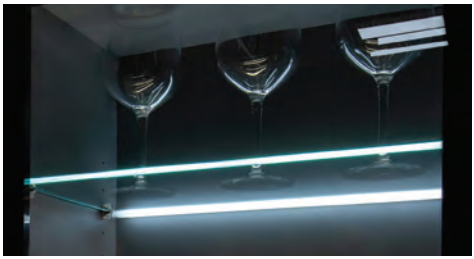
- Various lengths available to suit standard drawer carcasses
- IR sensor integrated on the front edge of the fitting; as soon as the drawer is opened the light will illuminate. Once the drawer is closed the fitting will switch off immediately to conserve energy
- The ideal solution to illuminate pan drawers
- Low wattage, meaning a full drawer stack can be illuminated using only one LED driver
- Brackets and cable tidy supplied

Sensio LED Lighting Products are covered by their 5 Year Guarantee.

Adorn Shelf Clip Profile

- A discreet profile that clips on to the back of an internal cupboard shelf
- Fits 18mm shelves
- Features upwards and downwards facing light sources to illuminate the cupboard
- Part of the Universal range of profiles which are compatible with any of the Sensio flexible strip range
- Features a U-shaped channel that clips around shelf edge
- Can be cut to size
- Attaches to the shelf with a simple push-fit





Glow Glass Shelf Clip Profile

- An inconspicuous solution to transform the appearance and functionality of feature cabinets as well as practical task lighting to locate items in a cupboard
- Part of the Micro-Lines range of profiles which have been designed for flexible strips that are 5mm in width or below (Ion 5 and Neutron Nano)
- Emits relaxing mood lighting that flows out into the kitchen when used on glass feature shelves
- Features an innovative living hinge allowing the two parts of the profile to stay attached when the flexible strip is installed and making it simple to clip the two sections back together
- Can be cut to size
- Fits 4-8mm glass shelves
- Attaches to the back of the shelf with a simple push-fit

Genoa Shelf Profiles

The Genoa Integrated LED shelf profile is a unique product that can transform a normal wooden shelf into an illuminated shelf. The product features a U-shape profile for easy and simple installation on 18mm thick shelves. Simply clip the profile on to an appropriately sized shelf: light is projected vertically in both directions.

- Integrated LED profile with diffuser
- Available in two different lengths
- Suitable for 18mm wooden shelves
- Finish: Champagne Aluminium
- Compatible with any Sensio 24 Volt

CABLE LENGTH: 2 metres

Torino Shelf Light

The Torino is a sleek and stylish LED shelf that has cool white LEDs embedded within the frame to create a stunning glow as the light is refracted through the tempered glass.

- Designed for easy installation
- Available in anodized aluminium with matt black or silver finishes
- Available in 600mm or 900mm lengths
- IP44 rating - suitable for installation in bathroom zone 2
- Recommended maximum load of 10kg

CABLE LENGTH: 2 metres

Blaze Slim Recessed Profile

- Designed specifically for the 3.5mm wide Neutron flexible strip - part of the Nano-Lines range of super slim lights and profiles
- An incredibly thin, diffused profile that produces an even spread of light with no visible LED points from the flexible strip
- Suitable for a range of applications in the kitchen and bedroom including wardrobes and cupboards
- The flexible strip mounting platform is angled to enable the flexible strip to extend round corners when paired with the Blaze corner connectors
- Fully diffused corner connectors result in a fully illuminated light circuit with no dark corners
- Simple push-fit installation
- Wide wings cover any router imperfections
- Can be cut to size
- Supplied with one set of end caps (additional end caps sold separately)
- 1.5m length supplied with 2 mounting brackets and 2.5m length supplied with 4 mounting brackets (additional mounting brackets sold separately)

Gamma Slim Surface Mounted Profile

- Designed specifically for the 3.5mm wide Neutron flexible strip - part of the Nano-Lines range of super slim lights and profiles
- An incredibly thin profile that produces an even spread of light with no visible LED points from the flexible strip
- Perfect for use under cabinets or in larders or wardrobes
- Features an internal angled flexible strip mounting platform enabling the strip to extend around corners when paired with the corner connectors resulting in a fully illuminated light circuit with no dark corners
- Simple push-fit installation with brackets
- Can be cut to size
- Supplied with one set of end caps (additional end caps sold separately)
- 1.5m length supplied with 2 mounting brackets and 2.5m length supplied with 4 mounting brackets (additional mounting brackets sold separately)

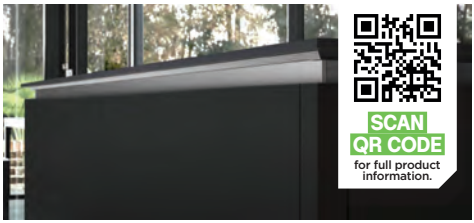
Ray Angled Profile

- Designed specifically for the 3.5mm wide Neutron flexible strip - part of the Nano-Lines range of super slim lights and profiles
- Fully diffused, angled light source - prevents glare and ideal for under cabinets or shelves where the light needs to be focussed
- Suitable for a range of applications in the kitchen and bedroom including wardrobes and cupboards
- The flexible strip mounting platform is angled to enable the flexible strip to extend around corners when paired with the Ray corner connectors
- Fully diffused corner connectors result in a fully illuminated light circuit with no dark corners
- Simple push-fit installation with brackets
- Can be cut to size
- Supplied with one set of end caps (additional end caps sold separately)
- 1.5m length supplied with 2 mounting brackets and 2.5m length supplied with 4 mounting brackets
- Internal and external corner connectors, additional end caps and mounting brackets sold separately

Accent Plinth Micro Profile

The Accent Micro Profile provides an innovative solution designed for mounting flexible strip lighting along plinth boards.

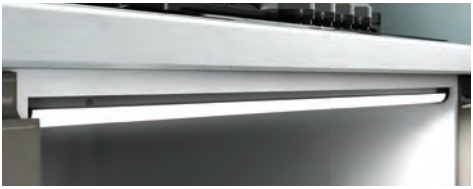
- Part of the Micro-Lines range exclusively designed for flexible strips 5mm in width or below (Ion 5 and Neutron Nano)
- Provides a diffused light effect
- Ultra-slim profile
- Can be cut to size
- Clips around the plinth board for secure mounting
- Removable strip mount for ease of installation and serviceability
- Designed to fit 16-18mm plinth boards
- Provides additional protection to the flexible strip
- No dark spots around corners when paired with the corner connectors
- Includes two end caps



Vector Handleless Micro Profile

The ideal lighting solution for contemporary handleless kitchens.

- Subtle and unobtrusive whilst emitting a powerful source of mood lighting
- Part of the Micro-Lines range of profiles which have been designed for flexible strips that are 5mm in width or below (Ion 5 and Neutron Nano)
- Provides protection of the flexible strip light when hands go to open drawers and cupboards
- Features an angled light source that guarantees the diffusion of individual LED points
- Removable strip mounting plate for ease of installation and serviceability
- Fully diffused corner connectors result in a fully illuminated light circuit with no dark corners
- Can be cut to size
- Attaches inside the handleless channel with VHB tape
- Includes two end caps



Adapt Corner and Drawer Profile

- A corner profile perfect for installation under cabinets, shelves or inside larder units or inside drawers
- Provides directional and diffused light where it is needed
- Part of the Micro-Lines range of profiles which have been designed for flexible strips that are 5mm in width or below (Ion 5 and Neutron Nano)
- Features an innovative living hinge allowing the two parts of the profile to stay attached when the flexible strip is installed and making it simple to clip the two sections back together
- Fully diffused resulting in an even spread of light with no visible LED points from the flexible strip
- Can be cut to size
- Mounting brackets and end caps included

Beam Angled Aluminium Profile

- Angled profile ideal for illuminating cupboards or larders providing an even spread of diffused light
- Part of the Universal range of profiles which are compatible with any of the Sensio flexible strip range
- Light grey finished end caps
- Supplied with one cut out end cap to feed cables through and one with no cut-out for a neat finish
- Opal PC cover to diffuse the LED points
- Mounting brackets and end caps supplied with each profile (2 brackets with 1000mm & 4 with 2200mm)
- Additional mounting brackets and end caps sold separately

Contour Under Worktop Profile

- Ideal for contemporary kitchen designs with handleless cabinets
- Also suitable for other applications: inside larders or wardrobes
- Compatible with Sensio flexible LED strips and has an opaque diffused lens so that individual diodes are not visible
- Can be cut to any desired length
- Internal and external corner connectors are optional extras
- Supplied with end caps - additional end caps (SE97790) are available separately

Linia Recessed Aluminium Profile

- Perfect for use inside cabinets, larders or wardrobes providing a flush fit for a minimalist finish
- Part of the Universal range of profiles: compatible with any of the Sensio flexible strip range
- End caps protrude to fill the gap in furniture when cut with a router for neat finish
- Small wings cover any imperfections in the routered edge
- End caps supplied with each profile (2 with the 1000mm, 4 with the 2200mm)
- Can be cut to size
- Additional end caps sold separately
- Available in aluminium and black finishes

Fino Surface Mounted Aluminium Profile

- Use under a cabinet to create a continuous run of streamlined task lighting
- The profile is extremely slim to create the ultimate discreet lighting solution
- Profile has a flexible frosted diffuser cover
- A versatile solution as both the profile and flexible strip can be cut to length - perfect for bespoke sizes
- Butt lengths of the profile together if a longer run is required
- End caps and mounting brackets included
- Aluminium and Black finishes available

Alto Rechargeable LED Wardrobe Rail Light

- Aluminium wardrobe rail light with anti-slip design
- Features an integrated PIR sensor which automatically switches the light on when the wardrobe door is opened
- The PIR will remain on for 30 seconds and then automatically switch off to conserve battery power
- Can be cut down if required. Cut length stated is the maximum from the left side of the unit
- No electrical installation required: contains a Lithium-ion rechargeable battery
- Run-time of the product is 6.5 months based on 2.5 minutes of use per day
- Average charging time is 5.5 hours
- Recharge the unit using the USB charger, available separately
- The maximum weight load of the rail is 20kg

Chrome

Stainless Steel

Magnum Rechargeable LED

The Magnum rechargeable battery cabinet light has a rechargeable lithium-ion battery and an integrated PIR sensor.

- Battery is rechargeable using the integrated USB port (USB cable included)
- Has an on/off switch to save the battery capacity when the unit is not in use
- Integrated PIR sensor enables the unit to stay lit when movement is detected, or when the cabinet door is opened
- If no movement is detected the unit will switch off after 10 seconds
- Simple installation via a self adhesive magnetic plate
- Magnum light can be easily removed from the magnetic plate for charging purposes
- Diffused cover
- Rapid battery charge time (<2 hours)
- Battery duration: 6 months - based on 2 mins of usage per day

Incline LED Wardrobe Strip Light

- Features an integrated PIR sensor which automatically switches the light on when the wardrobe door is opened
- The PIR will remain on for 30 seconds and then automatically switch off to ensure there is no power wastage
- This fitting can be cut down if required. An equal amount has to be cut from each end of the fitting
- No electrical installation required. Contains a Lithium-ion rechargeable battery
- The run time of the product is 6.5 months based on 2.5 minutes of use per day
- The charging time is 4.5 hours on average
- Suitable for use in a wardrobe or kitchen cabinet
- Recharge the unit using the 03.2005.0800 USB charger

SensioPod E Pull-Up Socket

The SensioPod E is a versatile extension that can deliver power to many different electrical items, especially suited to kitchen islands where power sockets are often limited.

- Slim handle sits almost flush with the worktop for a seamless finish
- Spring mounted handle
- 3 x power sockets
- 2 x USB sockets
- IP20 rated
- Simple installation - 1.5m cable with 13A plug attached
- Small footprint
- Can be retrofitted into wooden surfaces

CABLE LENGTH: 1.5 metres

SCAN QR CODE for full product information.

SensioPod M Motorised Socket

The SensioPod M, with its smooth, motorised mechanism, is the perfect addition to a kitchen island unit or worksurface to provide power and charging facilities.

- Motorised mechanism with anti-trap feature
- Pausing feature to allow the pod to be partially lowered when in use
- Simple touch sensor control
- Integrated Qi charger
- 3 x Power sockets
- 2 x USB sockets
- IP54 rated
- Simple installation - 1.8m cable with 13A plug attached
- Small footprint
- Aluminium finish

CABLE LENGTH: 1.8 metres

SCAN QR CODE for full product information.

SensioPod M Motorised Socket with Bluetooth

The SensioPod M Bluetooth has all the features of the SensioPod M but also has an integrated Bluetooth speaker - perfect for playing music in the kitchen.

- Motorised mechanism with anti-trap feature
- Pausing feature to allow the pod to be partially lowered when in use
- Simple touch sensor control
- 3 x Power sockets
- 2 x USB sockets
- Integrated Qi charger
- Integrated Bluetooth speaker
- Aluminium finish

CABLE LENGTH: 1.8 metres

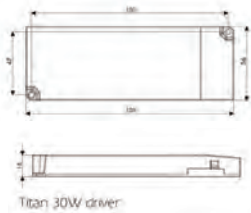
Titan 15W driver



Titan 30W driver

Titan Low Profile 24v Drivers

Measuring at only 16mm in depth, the Titan low-profile drivers are a discreet solution that can be hidden away during installation. Features integrated JB4 ports rather than a traditional distribution block.

- Slim, compact and fully integrated design
- 24V supply
- Short Circuit protection
- Overload protection
- Thermal protection
- Surge protection
- These drivers are not dimmable by themselves, nor have they been tested with 3rd party dimmers. If a dimming function is required, these drivers can be used in conjunction with the single colour Receiver (SE772990) and the Universal Remote Control (SE770390)

CABLE LENGTH: 2 metres

Titan Dimmable Driver

- Depth of 16mm
- Integrated 2-pin connector, distributor ports
- 2mtr mains cable included
- Short circuit & overload protection
- Surge and thermal protection
- Wide dimming range: 5% - 100%
- Wall dimmable
- Easy to use - Just plug and play
- Minimum 25% load

CABLE LENGTH: 2 metres

SCAN QR CODE for full product information.

Titan Smart Drivers

Compatible with Amazon Alexa and Google Assistant, the Titan Smart Drivers enable voice-activated control over lighting. Operated with the Sensio Smart App on both Android and iOS devices.

- Slim 16mm depth
- Easy to use and Install
- Integrated JB4 distribution ports
- Enables voice-controlled lighting
- Mains cable included (2mtr)
- For use with the Flux RGB CCT LED Flexible Strip

CABLE LENGTH: 2 metres

Titan+ Sensors

The Titan+ range of sensors are compatible with the Titan+ drivers, offering simple plug and play setup.

Titan+ Wireless IR Sensor

Titan+ Wireless Door Sensor

SCAN QR CODE for full product information.

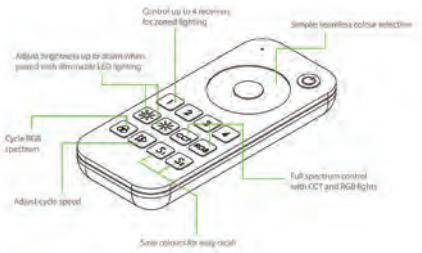
Titan+ Wireless Touch Sensor

Titan+ Wireless Sensor Components

Titan+ Wireless Sensors And Receivers

Eliminate the hassle of wires and cables with the Titan+ Wireless sensor range. Available in 4 different sensor options - Touch, IR, Door and PIR - giving a choice of control and allowing bespoke product creation. As well as ease of use, the Titan+ Wireless sensor range reduces energy consumption, as they don't require a constant power supply or connection.

- Low profile - sensor and bracket design
- One switch - controls all driver channels
- Quick connect - receiver plugs directly into the Titan+ driver port
- One touch pairing
- No messy wires to hide
- Perfect for surface mounting with the included bracket
- Detection range from sensor to receiver: 1-10 metres
- Easily pair up to 10 sensors to one receiver for wireless connection
- Different types of Titan+ wireless sensors can be paired to one receiver
- IP Rating: IP20



SCAN QR CODE for full product information.

Universal Remote Control

- The remote can control single colour lighting (dimming), CCT (tunable white) and RGB (colour changing) lights
- Offers a multitude of functions including the ability to set up channels and zone lighting
- Wall mounting bracket provided to keep the remote safe and secure when not in use
- Requires 2x AAA batteries (not included)

Sensio LED Lighting Products are covered by their 5 Year Guarantee.

CCT Receiver

- Control CCT (Correlated Colour Temperature) lighting products
- Combine with the Remote Control to turn the lights on/off, dim to the preferred lighting level or select the light colour temperature
- The receiver has a memory function to recall settings
- Multiple receivers can be paired with a single Universal Remote Control
- 30m range
- 60W at 12V and 120W at 24V

SCAN QR CODE for full product information.

RGB Receiver

- Control RGB lighting products
- Use with the Remote Control to turn the lights on/off, dim to the preferred lighting level or light colour (RGB)
- The receiver has a memory function to recall settings
- Multiple receivers can be paired with a single Universal Remote Control
- 30m range
- 36W at 12V and 72W at 24V

SCAN QR CODE for full product information.

Single Colour Receiver

- Control single colour lighting products (e.g warm white colour temperature lights)
- Combine with the Universal Remote Control to turn the lights on/off or dim to a preferred lighting level
- The receiver has a memory function to recall settings
- Multiple receivers can be paired with a single Universal Remote Control
- 30m range
- 96W at 12V and 192W at 24V

SCAN QR CODE for full product information.

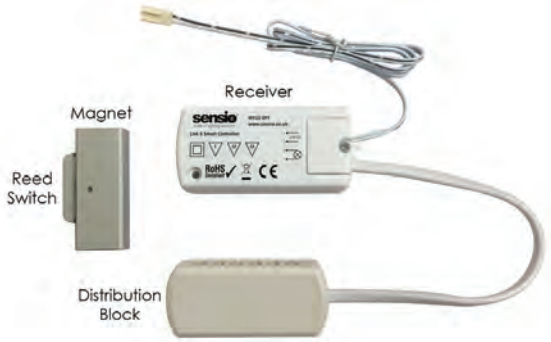
Sensio TrioTone Switch for CCT Products

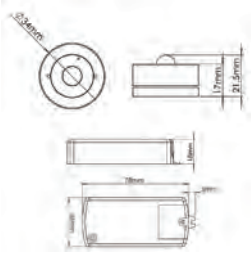
The TrioTone controller enables the selection of Cool White (5000K), Natural White (4000K) or Warm White (3000K) of any Sensio CCT product, without the need for a CCT driver or the Universal Remote. The controller plugs directly into any standard Titan+ driver, making any CCT product TrioTone compatible.

Link-S Wireless PIR & Receiver

The Wireless PIR Sensor is the latest wireless product from the Link-S range, offering motion triggered lighting without having multiple cables to hide. The discreet sensor can be easily mounted to any surface with the included mounting bracket and once installed will sense any motion within three metres to trigger the lighting. The product functions alongside a receiver that plugs into the LED driver. Simply plug the lighting into the receiver and the sensor will trigger the lighting when motion is detected.

- Control all connected lights via a proximity sensor
- Activates lights on opening of a cupboard or entry of a room
- 1-3 metre activation zone
- Automatically switches off the lights after 3 minutes if no movement detected
- Includes bracket for surface mounting of the sensor
- Available as a kit including the wireless receiver and sensor, in addition to single sensors which are sold separately
- One receiver can support up to 4 sensors to ensure there are no blind spots in detection
- Can be retrofitted to a LED Driver





Link-S Receiver | Magnet | Reed Switch

The Link-S Receiver, Magnet and Reed Switch is a cleverly designed solution to control lighting wirelessly through the opening and closing of doors. The magnet and reed switch are suitable for mounting on any door and frame/surround: opening the door will send a signal to the receiver to trigger the lighting. The magnet and reed switch are easily installed with 3M transfer tape and the small size of the components ensures a discreet appearance. The Link-S Receiver can control multiple lights within a kitchen, which means no more fumbling for switches in the dark, and no more wasted energy when forgetting to turn the lights off.

- Cost Effective Solution (No electrical installation required)
- Ideal for Wardrobe and Kitchen Cabinets
- Compatible with Sensio Drivers
- >8m Range
- Battery life > 3 years
- One Receiver can support up to 5 Magnets + Reed switches
- One Reed switch + Magnet can support up 5 Receivers

Sensio LED Lighting Products are covered by their 5 Year Guarantee.

MoveBin Undersink Unit

MoveBin is a new concept to take advantage of under-sink unit space.

- Automatic lid with damper included.
- When the lid is down, it can be used also as a work surface, for holding a bin for waste disposal during food preparation.
- The mechanism allows for a 70° opening of the lid, which closes then automatically. To remove the bins it is possible to open the lid manually to 90°.
- Drawer space behind the bin unit can be used for additional storage i.e. cleaning materials
- Ease of waste collection and separation for recycling purposes.
- The automatic lid with its rubber tailor-made bag stoppers, lid seal and carbon filters, prevents odours from escaping.
- Easily cleaned and maintained: the single metal unit at the base of the unit is removable and easily cleaned.
- Instructions for installation into a range of drawer systems, including Blum Legrabox and Blum Tandembox.

Code	Cabinet:	Width:	Height:	Length:	Capacity:

202 Slim Storage System

Slim Storage System

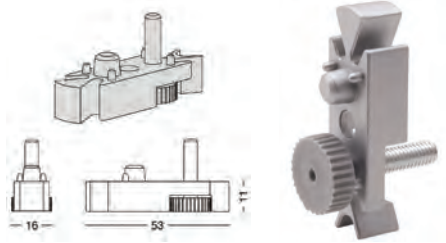
Slim is a multifunctional structure of aluminium profiles and components that allows the design of an endless array of wardrobe and wall storage solutions. The versatility of the Slim system offers an almost infinite range of furnishing solutions; furthermore the simplicity of the Slim system lends itself perfectly to ease of installation..

- Easily and stylishly customise and divide rooms and wardrobes using all available space, both height and length
- Three different core applications - floor-to-wall, wall-to-wall, floor-to-ceiling (flat and sloping ceilings) - of the Slim wardrobe system allows installation in rooms of all shapes and sizes, creating functional and stylish furnishing and storage solutions
- Visit www.hpponline.co.uk/cat/2766 for a more detailed user guide and further design ideas

Slim Storage Aluminium Profile

- Used to create the main frame of the system
- Profiles can be cut down to any length
- Reversible profile: front facing edge can be either concave or convex

Code	Length:	Width:	Depth:
52684	3mtr	16mm	53mm



Slim Storage Adjustable Foot

- Fixes to the end of profile where it will be in contact with the floor
- Adjustment allows for uneven floors
- Sold individually

Code	Adjustment:
18209	+15mm

Sophisticated Simplicity in 25mm and 38mm Postformed and Square Edged

The Egger Worktop Collection offers an exciting and versatile range of high quality and durable worktops. From walnut to oak and concrete to marble, there is a finish to suit every interior including kitchens, bathrooms, offices and retail.

The 38mm postformed range has 23 décors in woodgrains and material reproductions. Four Feelwood oak décors are available in 38mm square edge and 12 material reproductions in 25mm square edge.

All Egger Worktops come with a 10 year guarantee when EGGERSeal and the fitting guide are used.

25mm Square Edge

- Choose from 12 striking material reproductions offering that sleek, smooth feel of marble or authentic texture of stone or slate.

38mm Square Edge

- Discover the 4 décors carefully chosen from the highly popular Feelwood range.

38mm Square Edge

- Choose from 23 desirable décors, ranging from walnut to oak, concrete to marble, classic to contemporary and sparkle to shine.

Matching Materials

- Matching splashbacks, upstands and edging provide the finishing touches to your designs. 17 worktop décors also have matching MFC.

Digital Tools

- A range of digital tools are available to visualise and navigate the worktop range. These include Worktops Visualiser, Worktop Combination Guide, Worktop Finder & Virtual Worktop Samples. Some of these can be embedded on your own website, contact your representative for further details about this.

Showroom Support

- Revamp your showroom with the Egger Worktop Collection. Contact your representative for details of supported packages.

Marketing Materials

- In addition to digital tools and samples a range of physical tools are also available. These include décor samples, a range swatch, display stand and brochure and can be requested from our website or by contacting your representative.

Egger Worktops 25mm Square Edged

For that sleek, smooth feel of marble or authentic texture of stone or slate, choose from 12 striking material reproductions in the 25mm worktops range.

- Marble, stone, slate and material décors
- High-value look and feel
- Matching splashbacks and upstands available
- 10 year guarantee when EggerSeal and Fitting Guide is used

Egger 25mm Square Edged Anthracite Candela Marble

F244 Anthracite Candela Marble looks like a mixture of marble and concrete and has elements of a fine stone appearance. This diversity in character works well on large surfaces. This is supported by the XL repeat, which minimises the repetitions in the decor image. Combinations with warm, neutral uni colours or woodgrains work well with the warm-toned veins. ST76 Mineral Rough Matt supports this natural look with a matt-rough feel.

- Matching board available - F244ST7618

Code	Type:	Depth:	Length:	Thickness:
58872	Single square edged	650mm	4100mm	25mm
98000	Double square edged	920mm	4100mm	25mm
02714	Splashback	640mm	4100mm	8mm
13936	Upstand	120mm	4100mm	18mm
40016	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Anthracite Metal Rock

Anthracite Metal Rock displays the perfect fusion of stone character and metal appearance. The ST87 texture invigorates the décor with its matt-gloss effects and enhances the mother-of-pearl in the décor particularly well. Thanks to the brownish colour elements of the anthracite, it creates a harmonious contrast to wood and warm grey tones.

- Matching board available - F121ST8718

Code	Type	Depth	Length	Thickness
14680	Single square edged	650mm	4100mm	25mm
34070	Double square edged	920mm	4100mm	25mm
14149	Upstand	120mm	4100mm	18mm
70767	Edging Strip	45mm	per mtr	0.5mm
60263	ABS Edging Tape	30mm	per mtr	1.5mm

Egger 25mm Square Edged Calais Travertine

F052 Calais Travertine is a natural reproduction of a travertine. Slight cracks and grainy inclusions give the decor a lively appearance, despite its restrained overall effect. Combines well with dark brown woodgrains and neutral, light uni colours. ST75 Mineral Satin gives the decor a velvety, natural feel.

Code	Type	Depth	Length	Thickness
02687	Single square edged	650mm	4100mm	25mm
65927	Double square edged	920mm	4100mm	25mm
96304	Splashback	640mm	4100mm	8mm
14391	Upstand	120mm	4100mm	18mm
73489	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Cremona Marble

F229 Cremona Marble has a crystal like appearance. Delicate white veins bring transparency to the decor, giving it a sophisticated look. ST75 Mineral Satin gives the decor a calm velvety look and feel, characterised by small indentations in an overall uniform surface.

Code	Type	Depth	Length	Thickness
28933	Single square edged	650mm	4100mm	25mm
94668	Double square edged	920mm	4100mm	25mm
09796	Splashback	640mm	4100mm	8mm
36821	Upstand	120mm	4100mm	18mm
01205	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Crystal Marble

With its warm grey veining, which create transitions to warm wood tones, F800 Crystal Marble has a very natural effect. The strong white base is particularly effective on large surfaces, where it displays increased authenticity due to the XL decor repeat. ST9 Smoothtouch Matt gives a classically smooth but modern matt finish.

- Matching board available - F800ST918

Code	Type	Depth	Length	Thickness
14339	Single square edged	650mm	4100mm	25mm
25534	Double square edged	920mm	4100mm	25mm
97058	Splashback	640mm	4100mm	8mm
60675	Upstand	120mm	4100mm	18mm
47189	ABS Edging Strip	43mm	permtr	1.5mm

Egger 25mm Square Edged Cupria Slate

F237 Cupria Slate is warm, elegant and natural. The copper-coloured base refines this black stone which combines well with bronze, copper or red wood tones. ST76 Mineral Rough Matt ensures that this decor also feels rough and original.

- Matching board available - F237ST7618

Code	Type	Depth	Length	Thickness
33189	Single square edged	650mm	4100mm	25mm
82333	Double square edged	920mm	4100mm	25mm

80478	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Grey Braganza Granite

Grey Braganza Granite can be used as granite and also as marble, thanks to its large-surface inclusions. The grey colouring has a calming effect due to the ST75 Mineral Satin texture that gives the décor a velvety, natural feel. The light sand-coloured tone in the background works well in combination with classic yellow wood types, such as walnut or cherry.

Code	Type	Depth	Length	Thickness
56579	Single square edged	650mm	4100mm	25mm
05602	Double square edged	920mm	4100mm	25mm

50766	Upstand	120mm	4100mm	18mm
16786	ABS Edging Tape	30mm	per mtr	1.5mm

Egger 25mm Square Edged Grey Cascia Granite

F032 Grey Cascia Granite is a fine, modern granite that can be an elegant and natural alternative to dark concrete. The fine veins and colour gradients offer warm colour tones that combine well with woodgrains. Due to the alternation between matt and gloss areas, ST78 Mineral Granite gives stone reproductions an authentic character and realistic feel.

Code	Type	Depth	Length	Thickness
95543	Single square edged	650mm	4100mm	25mm
17220	Double square edged	920mm	4100mm	25mm
94816	Splashback	640mm	4100mm	8mm
97444	Upstand	120mm	4100mm	18mm
20021	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Light Grey Candela Marble

F243 Light Grey Candela Marble looks like a mixture of marble and concrete, but shows elements of a fine stone appearance, and works well on large surfaces. This is supported by the XL repeat, which minimises the repetitions in the decor image. Combinations with warm, neutral uni colours or woodgrains work well with the warm-toned veins. ST76 Mineral Rough Matt supports this natural look with a matt-rough feel.

- Matching board available - F243ST7618

69290	Single square edged	650mm	4100mm	25mm
68505	Double square edged	920mm	4100mm	25mm
02714	Splashback	640mm	4100mm	8mm
89891	Upstand	120mm	4100mm	18mm
91271	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged Sand Grey Calvia Stone

With the F676 Sand Grey Calvia Stone, the focus is on the diagonal course of the soft sandstone look, whose neutral multicolour allows for many material combinations. The sand grey colour variant is better suited for combinations with warmer colours. ST75 Mineral Satin gives the decor a calm velvety look and feel, characterised by small indentations in the surface.

Code	Type	Depth	Length	Thickness
61719	Single square edged	650mm	4100mm	25mm
39212	Double square edged	920mm	4100mm	25mm
83272	Splashback	640mm	4100mm	8mm
60006	Upstand	120mm	4100mm	18mm
65888	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 25mm Square Edged White Chromix

F637 White Chromix recreates a metallic look, but is equally reminiscent of concrete. In interior design, this character is perfect for the design of large wall surfaces, whilst in furniture design, it is often used for frontals and carcasses. The rough texture of the material is reproduced with ST10 Deepskin Rough.

- Matching board available - F637ST1018

Code	Type	Depth	Length	Thickness
16905	Single square edged	650mm	4100mm	25mm
18481	Double square edged	920mm	4100mm	25mm
36567	Splashback	640mm	4100mm	8mm
53412	Upstand	120mm	4100mm	18mm
51805	ABS Edging Tape	30mm	per mtr	1.5mm

Egger 25mm Square Edged White Levanto Marble

F812 White Levanto Marble looks particularly impressive on all surfaces in the kitchen. This retro material is revived through modern applications and combinations. The elegant crystalline marbling and the minimal repeating finish of the décor provides a natural appearance. The modern character of the marble is obtained with the smooth, matt feel of the ST9 surface.

- Matching board available - F812STPM19

Code	Type	Depth	Length	Thickness
97518	Single square edged	650mm	4100mm	25mm

Egger Worktops 38mm Square Edged

Create the look of real wood with these four fabulous oak décors. Carefully chosen from the highly popular Feelwood range, with texture and design perfectly aligned.

- Wood reproductions
- All worktops in a 38mm thickness
- Cost-effective alternative to real wood
- Create a high-value look and feel
- The grain is perfectly aligned with the texture
- Matching splashbacks and upstands available
- 10 year guarantee when EggerSeal and Fitting Guide is used

Egger 38mm Square Edged Cognac Brown Sherman Oak

H1344 Cognac Brown Sherman Oak shows a rustic oak reproduction with used effects enhanced by ST32 Feelwood Vintage. The cognac brown colour scheme is a classic for rustic naturalness, which can create an exciting contrast to modern neutral uni colours.

Code	Type	Depth	Length	Thickness
53355	Single square edged	650mm	4100mm	38mm
64321	Double square edged	920mm	4100mm	38mm

77876	Upstand	120mm	4100mm	18mm
12258	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Square Edged Light Natural Davenport Oak

Soft knots and gradient dark elements give H3359 Light Natural Davenport Oak a slightly rustic character. This new authentic woodgrain decor is easy to combine. The slightly brushed-out character is also noticeable through ST32 Feelwood Vintage. The natural light colour can be combined with many modern, neutral colours. Combinations with more intense but muted uni colours are also possible.

Code	Type	Depth	Length	Thickness
37273	Single square edged	650mm	4100mm	38mm
47897	Double square edged	920mm	4100mm	38mm
06828	Splashback	640mm	4100mm	8mm
02289	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Square Edged Natural Halifax Oak

Natural Halifax Oak is popular décor as it's striking cracks and knots create the look of nature and authenticity in the living space. It works very well in combinations with modern materials, such as metal, glass, and stone. Thanks to its reduced repetition of cracks in the décor image, it is ideally suited to large work surfaces and is enhanced by the synchronised ST37 Feelwood Rift texture.

- Matching board available - H1180ST3718

Code	Type	Depth	Length	Thickness
84150	Single square edged	650mm	4100mm	38mm

90670	ABS Edging Strip	43mm	per mtr	1.5mm
36855	ABS End Grain Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Square Edged Pewter Halifax Oak

H3176 ST37 Pewter Halifax Oak is an unusual and unique reproduction of a cracked oak, where the cracks have been plugged with tin, offering completely new visual possibilities in furniture design. In addition to uni décors, metallic décors are also very suitable for combinations with this oak. Thanks to the minimal repetition of the cracks in the décor finish it can also be used on large surfaces and is perfected by the ST37 Feelwood Rift texture.

Egger Worktops 38mm Postformed

From walnut to oak and concrete to marble, from classic to contemporary and sparkle to shine, the 38mm postformed range boasts 23 desirable décors.

- Wood reproductions, ceramic and material finishes
- All worktops in a 38mm thickness
- Postformed to a 3mm radius for a sleek finish
- Matching splashbacks and upstands available
- 10 year guarantee when EggerSeal and Fitting Guide is used

Egger 38mm Postformed Anthracite Mountain Basalt

F247 Anthracite Mountain Basalt shows a dark and deep material character, which feels rough and original thanks to ST76 Mineral Rough Matt. A natural elegance is created in combination with dark grey tones or black.

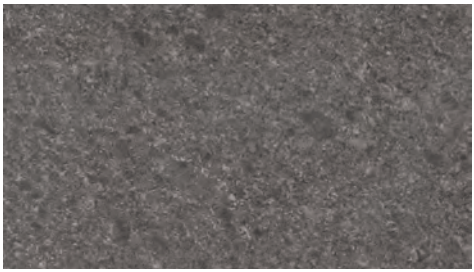
Egger 38mm Postformed Anthracite Steel Grey



The special stone look of F620 Anthracite Steel Grey as a worktop offers a cool grey accent. Some larger elements show a crystalline character, giving the decor an authentic look. ST87 Mineral Ceramic livens up the decor with its matt-gloss effects and ceramic look and feel.

Code	Type	Depth	Length	Thickness

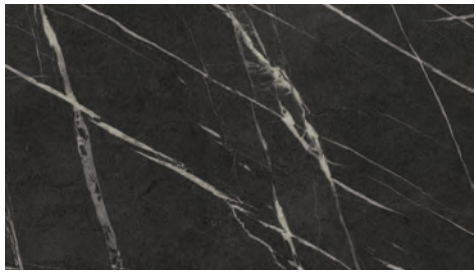
Egger 38mm Postformed Black Pietra Grigia



The F206 Black Pietra Grigia displays a strong character, offering good opportunities to play the black-and-white theme with white in all textures or white wood types, especially because of its white vein detail. The décor achieves an elegant, smooth-matt stone feel, even looking very authentic on large surfaces as it displays fewer repetitions.

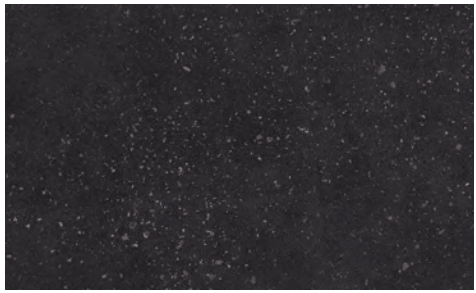
Egger 38mm Postformed Black Sparkle Grain



The Sparkle Grain décor series combines the characteristics of different materials and is therefore suitable for a wide variety of applications. In the black colour, the décor looks like dark concrete, but when combined with ST76 Mineral Rough Matt it also looks like a fine granite or terrazzo. It can create a strong contrast to white or bright colours, as well as offering a good option for creating different black looks.

Egger 38mm Postformed Cascina Pine

White takes centre stage on the Cascina Pine. Natural pine elements in vintage style shine through, giving this décor a high degree of originality. Thanks to the discreet yet striking rustic elements, this décor gives the opportunity to design with mainly white and still add a trendy natural element to the room. This character is enhanced by the visually linear and brushed ST22 Deepskin Linear texture.

Egger 38mm Postformed Chromix Silver

F638 ST10 Chromix Silver recreates a plaster surface. In interior design, this character is perfect for the design of large wall surfaces, whilst in furniture design, it is often used for frontals and carcasses, although perfect too as a worktop surface. The texture of the material is reproduced with ST10 Deepskin Rough.

36821	Upstand	120mm	4100mm	18mm

Egger 38mm Postformed Dark Hunton Oak

The distinctive planks and natural cracks and knots of the Dark Hunton Oak ensure a very rustic, authentic appearance. This makes for exciting accents in both furniture design and as a worktop décor. The dark colour tone adds a certain elegance to the rustic planked appearance character, accentuated by the ST10 Deepskin Rough texture. The décor looks even more natural thanks to the minimal repetition of the cracks and knots.

04474	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Grey Bardolino Oak

Bardolino Oak with its rough-sawn elements looks more natural and handcrafted than classic oak. This is also supported by the ST10 Deepskin Rough texture. The grey colour works well with many uni colours and materials. Combinations with white work well with its light pore detail.

Egger 38mm Postformed Grey Sparkle Grain

The Sparkle Grain décor series combines the characteristics of different materials and is therefore suitable for a wide variety of applications. In the grey colour, the décor looks like concrete, but when combined with the ST76 Mineral Rough Matt texture it also looks like a fine granite or terrazzo. The grey colour works well with light wood or cool-grey uni colours. Accent colours work as well staged by this neutral décor.

05112	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Light Grey Chicago Concrete

Light Grey Chicago Concrete resembles a slightly cool concrete surface, ideal for creating an industrial feel to interior design. This is an especially effective and authentic look on large surfaces as it displays fewer décor repetitions. The ST9 Smoothtouch Matt texture creates the matching cool matt feel.

79778	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Light Grey Valmasino Marble

Light Grey Valmasino Marble has a classic image, but its light colour makes it elegant and balanced. The light grey colour tone can be easily combined with a variety of cool or even bluish grey nuances from the unicolour range. The white inclusions also invite combinations with white. The ST75 Mineral Satin texture gives the décor a velvety feel, and visually adds to it a natural irregularity.

Code	Type	Depth	Length	Thickness
65567	Single post-form	600mm	3050mm	38mm
26596	Single post-form	600mm	4100mm	38mm

99769	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Natural Hamilton Oak

Natural Hamilton Oak is a striking authentic-looking oak with distinctive dark inclusions, knots and a classic natural colour. This décor can be combined with a crisp white as a calming opposite. It works well for large surfaces as the striking elements have a minimal repeat. The ST10 Deepskin Rough texture completes the authentic feel.

23755	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Oak Butcherblock

Butcher block looks are a popular theme on worktops, appearing elegant due to their narrow planking while showing a craftsmanship touch. Oak Butcherblock consists of a variety of rustic elements, typical of oak yet remains subtle due to its grey natural tone. In its slightly greyed-out natural tone, however, it does not seem too turbulent. It allows combinations of light to dark solid colours and material décors.

Code	Type	Depth	Length	Thickness
34701	Single post-form	600mm	3050mm	38mm
74481	Single post-form	600mm	4100mm	38mm

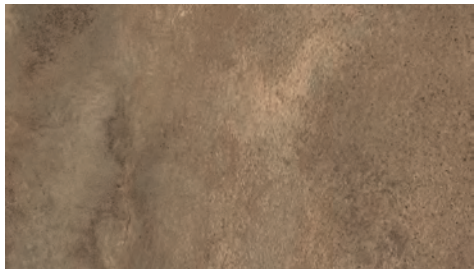
91683	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Sand Beige Titanite

F226 Sand Beige Titanite is the lightest colour variant of the sandstone décors. It has an authentic finish due to its large-format appearance. The warm and soft colour gradient between cool grey and brown means it combines well with multiple décors. The rotation between matt and gloss textures in ST78 Mineral Granite makes its character even more authentic with a striking feel.



Code	Type	Depth	Length	Thickness
71151	Single post-form	600mm	3050mm	38mm
43113	Single post-form	600mm	4100mm	38mm

59400	ABS Edging Strip	43mm	per mtr	1.5mm

Egger 38mm Postformed Sand Grey Calvia Stone

With the F676 Sand Grey Calvia Stone, the focus is on the diagonal course of the soft sandstone look, whose neutral multicolour allows for many material combinations. The sand grey colour variant is better suited for combinations with warmer colours. ST75 Mineral Satin gives the décor a calm velvety look and feel, characterised by small indentations in the surface.

Code	Type	Depth	Length	Thickness
01987	Single post-form	600mm	3050mm	38mm

60006	Upstand	120mm	4100mm	18mm
65888	ABS Edging Strip	30mm	per mtr	1.5mm

Egger 38mm Postformed Scivaro Slate

Slate combines elegance with a rough natural finish, and can be a high-quality alternative to concrete. F235 Scivaro Slate has a black and reflective character, which feels rough and realistic thanks to ST76 Mineral Rough Matt. Due to the XL repeat, there are fewer repetitions in the décor image, which makes the reproduction look even more natural, especially on large surfaces.

Egger 38mm Postformed White Levanto Marble

F812 White Levanto Marble has a discreet, yet elegant pattern that can be used on all surfaces in furniture and interior design. This classic material has been revived in modern applications and combinations. The elegant marbling and finishes of the decor in the XL repeat provides a natural appearance and makes it suitable for large work surfaces. ST9 Smoothtouch Matt offers an elegant, matt touch.

Our range of Kronospan worktops really does offer something for every design and budget. From postformed and square edged 38mm woodgrains to sleek 12mm Slim Line compact boards. All with matching splashbacks and upstands.

Kronodesign Postformed Worktops

Kronodesign Postformed Worktops are based on raw particleboard covered with a decorative HPL laminate and strengthened on the front with a special HDF strip, making them ideal for counters in kitchens, offices and shops. They are available with a slightly rounded 3mm radius U-shape profile as well as a double-sided U-shape profile, ideal for breakfast bars and centrepiece kitchen islands.

Available in woodgrain, stone, concrete and metal décors.

Kronodesign Square Edged Worktops

The modern version of a worktop, featuring a straight edge and 1.5 mm ABS edging that gives a sturdy, square look. The simple, cleaner lines make these worktops perfect for any contemporary or minimalist kitchen design.

Available in woodgrain, stone, concrete and metal décors.

Kronodesign Slim Line Worktops*

A special selection of 12mm compact boards with a monochrome core, Kronospan Slim Line worktops are ideal for upmarket furniture and interior design. They don't require additional edging or surface finish processing, so are perfect for bespoke kitchen or office worksurfaces.

*Available with a 72-hour lead time. Complete the online enquiry form or contact us for more details.

Kronodesign Finest Worktop Collection

The Finest Collection offers 3 metre (round and square edge 38mm profiles) and 665mm wide options to the existing range of Kronodesign décors. There is also a 22mm square edged range as part of the collection. The compact 3 metre option is perfect for smaller kitchens (less wastage) and easier transportation, while the 665mm is perfect for compact breakfast bars or easily cut down for a wider standard worktop. Advanced digital print technology ensures that selected décors have a repeat-free design across the full 4.1m surface, ensuring a truly natural aesthetic.

Matching upstands and double-sided splashbacks are included across all designs.

Kronodesign Splashbacks

Coordinated splashbacks provide the finishing touch to worktops in kitchens, offices or work areas. Connecting the worktop with the upper cupboard line in the kitchen, they protect the walls behind the work surface and add an extra decorative touch. Splashbacks are made for vertical use, from decorative HPL pressed onto particleboard, and with a perfect match for every worktop in the Kronodesign range. Available in 4100 x 640 x 10mm.

Kronodesign Postformed Worktops

Kronodesign Postformed Worktops are based on raw particleboard covered with a decorative HPL laminate and strengthened on the front with a special HDF strip, making them ideal for counters in kitchens, offices and shops. A special silicone strip is placed underneath the profiled edge along the entire worktop length, forming a drip barrier and keeping out water. They are available with a slightly rounded 3mm radius U-shape profile as well as a double-sided U-shape profile, ideal for breakfast bars and centrepiece kitchen islands.

Kronodesign Square Edge Worktops

The modern version of a worktop, featuring a straight edge and 1.5 mm ABS edging that gives a sturdy, square look. The simple, cleaner lines make these worktops perfect for any contemporary or minimalist kitchen design. Please note that edging strips are not included with worktops in this range, the ABS edging strips must be ordered separately.

252 Kronodesign Slim Line Worktops

Kronodesign Slim Line Worktops

A special selection of 12mm compact boards with a monochrome core, Kronospan Slim Line worktops are ideal for upmarket furniture and interior design. They have improved resistance to abrasion and moisture, function well and look good. Slim Line worktops are for horizontal use with specially selected designs that add style to any application. They don't require additional edging or surface finish processing, so they are perfect for bespoke kitchen or office worksurfaces.

- Water resistant, weight-bearing and suitable for undermount sink installation
- No need for bonding or edge banding
- Possibility to add an attractive bevel on the exposed edges of the worktop
- Suitable for horizontal and vertical applications - can be used as a kitchen worktop and splashback
- Double-sided decorative surface - ideal for use in open cabinets and breakfast bars
- Hygienic, easy to maintain and clean due to its non-porous surface

256 Solid Wood Worktops

Solid Oak BC Worktops

Oak is the most popular wood species and personifies everything that people look for when they choose a solid wood worktop. It is extremely strong and hard wearing which is ideal for worktops. The rich colour will mature and darken over time and add character to any kitchen. Choosing an Oak worktop guarantees a truly unique product that will give pleasure for many years to come.

- Pre oiled allowing a significant reduction in installation time
- Ultra smooth, silky and highly moisture resistant surface
- Produced using high quality raw materials
- Advanced processes ensure both the grain and colour are consistent
- 40mm staves
- Installation instructions and care / maintenance guidelines are included

Solid Oak Upstand

Code	Type:	Depth:	Length:	Thickness:
69508	Worktop	600mm	3000mm	38mm
00192	Worktop	600mm	100mm	38mm
06863	Breakfast Bar	900mm	2000mm	38mm
37193	Upstand	70mm	3000mm	18mm

Worktop Oil

- Worktop Oil is designed for untreated or previously oiled/sanded wood surfaces. The oil makes the surface highly water and dirt repellent.
- Use Worktop Oil - Natural on both dark and light wood species - such as mahogany, merbau, teak, cherry, ash, oak, beech, maple, birch, pine etc - to give the wood a mellow, golden colour.
- Woca worktop oil is best used for the initial installation and for the following two months as per instructions to ensure full protection "within the wood" - normally after the first month of installation a further light coat is applied followed on two months later with a final light coat buffed in with a cotton cloth.
- The can includes a QR code which can be scanned with a smart phone to link to a video which shows how to use the product.

Downlights

Aurora R6™ Fixed 6W Fire Rated Downlight

The R6™CS downlight is a colour-switchable fire-rated downlight, with an AMP connector applied to a remote detachable driver with a loop in/loop out terminal block. With a height of only 50mm, it is ideal for shallow ceiling voids.

- Colour temperature can be switched between 3000K, 4000K and 5700K
- Lumen output ranges from 540lm at 3000K, 640lm at 4000K and 580lm at 5700K
- Triac dimmable as standard
- Low profile design for shallow ceiling voids (50mm)
- Supplied with detachable remote driver
- Supplied with white IP65 polycarbonate bezel
- Insulation coverable
- Select colour temperature prior to installation
- Patented fire rated downlight without intumescent
- Fire, acoustic and air leakage rated
- Tested in 30, 60 and 90 minute solid timber joist, plus 30 minute i-joists and metal web joist
- 60° beam angle
- L70 40,000hrs
- 5 Year Warranty

Space Plug Carcass Fittings

Winner of the FIRA Innovation Award, Space-Plugs are an innovative base unit wall fixing system. No more need for fiddly L-brackets.

- No more L-bracket hassle
- Quick, accurate and user friendly
- Only one fitting & screw normally required
- Flexible positioning: find wall studs, avoid cables & pipes
- Suitable for most fitted furniture
- Suitable for a range of applications where an adjustable, accessible stand-off is required
- Accessible after installation
- Drill bit included

Code	Size:	Qty:
25925	30 - 50mm	50
20526	45 - 80mm	50

Space Plug Pack

Pack includes:

- 5 x regular size for 30-50mm gaps
- 5 x XL size for 45-80mm gaps
- 1 x masonry drill bit

Code	Finish:

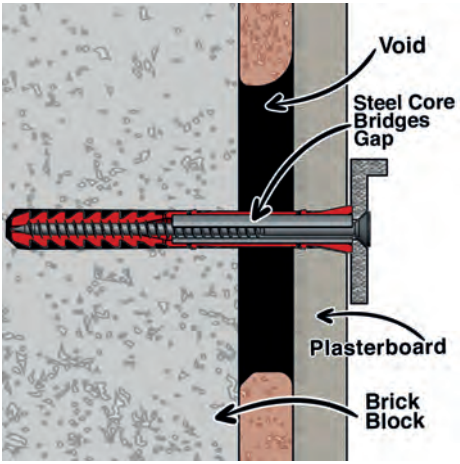
Plaster Board Fixing

Self-drilling one piece anchor for light duty attachment to dry wall. Holds up to 40lbs in 1/2" dry wall.

Code	Size:
78750	35 x 14mm



Corefix Dot & Dab Wall Fixing

- A strong and fast fixing for drylined, dot and dab walls
- A three part set comprising a patented plug, steel core and 100mm screw
- Tested to 250kg on four fixings with a safe working load of 90kg
- Ideal for hanging heavy loads such as large screen TVs, wall hung cabinets, boilers and sanitaryware

Code	Type:
11892	Pack of 4

302 Glues and Fillers

Multi-Purpose Silicone

Acetoxy silicone sealant that cures to form a flexible, durable weathertight seal on many common building surfaces, including glass, metals, wood and ceramic tiles.

- Contains a fungicide that resists mould growth
- Suitable for interior and exterior use
- All weather use
- For internal & external use
- General construction, masonry, woodworking & roofing, flooring, baths, showers & sinks, kitchen fittings, ceramic tiles, plumbing, HVAC ducting, shop windows and signs, electrical conduit

Code	Colour:
77458	Black
09211	Clear
78986	White

High Tack Sealant/Adhesive

Super strong sealant and adhesive.

- High initial tack and end strength (320kg/10cm^2)
- High performance flexible bonding and sealing of all types of materials
- For use on almost any surface - interior and exterior applications, both porous / non porous, even if wet or humid (except on PE, PP and PTFE)
- Primerless adhesion and paintable
- Contains XS1 fungicide providing ultimate resistance against mould growth

Code	Colour:
74909	Black
93718	Clear
80398	White

Low Modulus Silicone

High quality low modulus neutral cure silicone sealant.

- Very fast skinning time and final cure
- Excellent toolability
- Primerless adhesion on all common construction materials (glass, plastics, masonry substrates, metals and wood)
- High movement capability
- Resistant to UV, rain, snow
- High and low temperature resistance
- Conforms to ISO 11600 F&G 25 LM

Code	Colour:
03369	Clear
13699	White

Super Fast Curing Sealant Adhesive

Hybrid polymer sealant adhesive.

- Super fast
- Rapid strength build up after 20 mins
- Final bond strength in 3 hours
- Permanently flexible
- ALL materials, ALL surfaces, inc. wet and humid (except on PE, PP and PTFE)
- Virtually odourless
- Good weather and UV resistance
- Primerless adhesion
- Interior and exterior applications

Code
03638

PU Wood Adhesive

Water resistant PU timber adhesive.

- Liquid PU adhesive
- Easy to tool
- Professional quality
- Foaming action to fill gaps
- Water resistant (D4)
- 15 minutes open time
- Pressing time: minimum 3 hours

Code
33181

PVA Wood Adhesive

Water resistant PVA timber adhesive.

- PVA based adhesive
- Solvent free
- Easy to tool
- Transparent when dry
- High end strength
- Fast curing time
- Pressing time: 1 to 2 hours
- Hand tight: 2 to 4 hours

Code
73922

Decorators Caulk

An acrylic, solvent free dispersion that cures to form a durable, flexible seal.

- Smooth finish
- For interior use
- Can be painted or papered over when dry
- Sealing gaps around internal window and door frames, skirting boards, plasterboard, staircases, architrave and coving

Code	Colour:
42536	White

Mitre Kit

Two-part adhesive system - combines a cyanoacrylate based superglue with an aerosol activator.

- Fast acting: curing will occur almost instantly
- High bond strength
- Activator reduces odour and blooming

Code
54486

Silicone

- Provides a flexible waterproof seal, for use in damp/wet situations found in kitchens and bathrooms
- 310ml tube

Code	Colour:
04251	Brown

Opus.

Available in a range of matt and high gloss finishes, the Opus doors with their integrated J-Pull handle are the ultimate contemporary style statement. The 22mm door thickness, compared to a standard 18mm door, provides a reassuring feel of craftsmanship and attention to detail. Each component is manufactured with a painted and lacquered surface, resulting in an exceptional finish that is extremely smooth and hard-wearing.

Materials

- Core – MDF
- Front Surface – Painted & Lacquered
- Rear Surface – Melamine
- Edging – Painted & Lacquered
- Thickness – 22mm

Juno Kitchen.

A thin stile/rail version of our popular Aspire 'Johnson' door, available in six on-trend décors, off-the-shelf for next day delivery.

Offered to meet the demand for the on-trend 'skinny shaker' style, less blocky than a traditional Shaker door but retaining the same styling. The best of classic styling with a modern twist.

- Manufactured in-house
- Standard 18mm thickness
- Three on-trend matt finish décors
- Matching drawers, panels & mouldings
- Made-to-measure sizes also available

Materials
- Core – MDF
- Front Surface – Vinyl
- Rear Surface – Melamine
- Edging – Vinyl
- Thickness – 18mm

Fresh.

Avanti Fresh doors feature a super matt PVC surface which is extremely robust with a silky matt surface finish. SERICA is designed to cover all types of furnishings in homes, offices and retail environments. The foil is laminated to both sides of the board, which is not currently available on many other super-matt doors.

Encompassing both anti-scratch and thermal healing technology, this super-matt, low-light reflectivity material is also anti-fingerprint and in the case of micro-scratches, SERICA can be easily repaired by simply using an iron or hair dryer to renovate the surface.

Materials

- Core – MDF
- Front Surface – Serica Super Matt
- Rear Surface – Serica Super Matt
- Edging – ABS
- Thickness – 18mm

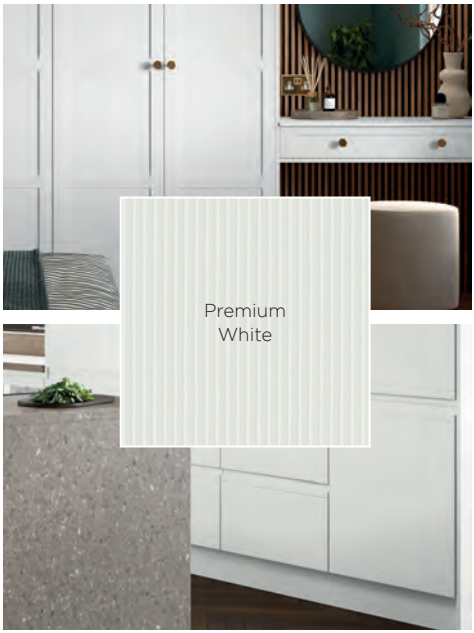
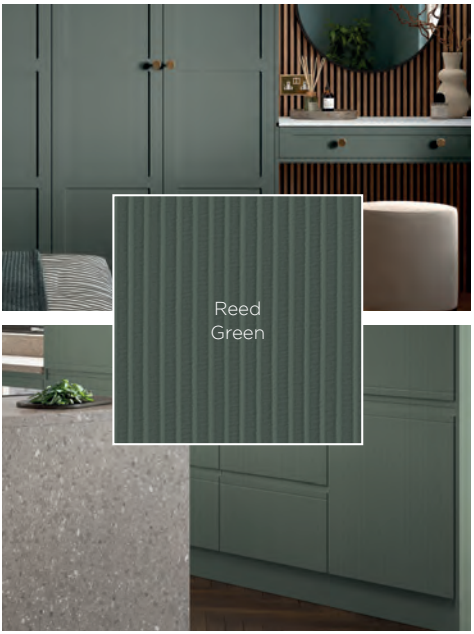
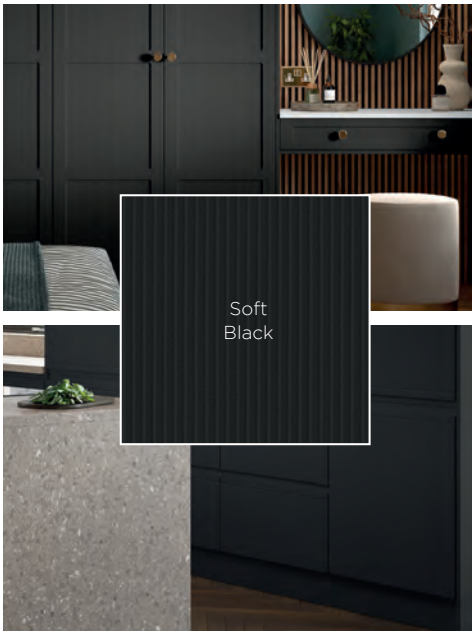
Available in four décors, the Linear vinyl option offers a highly tactile surface finish suitable for all applications. The fine grooves and textured surface are a welcome variation to the smooth vinyls already in the Aspire range.







352 New Décors

namu 나무
namuri
우리 uri

In honour of the material's Korean origin, Namuri is an amalgamation of two words from the Korean language:

나무
Namu - meaning tree, the inspiration for the product finishes and a living testament to growth and resilience.

우리
Uri - a cherished Korean term, the essence of togetherness and community, embodying the harmonious blend of 'you and I' into 'us', a shared identity and collective spirit.

Namuri redefines luxury for surfaces and doors, infusing them with unparalleled grace and timeless aesthetics.

With deep, authentic woodgrain effects, each finish is crafted to perfection, ensuring that it resonates with diverse interior design aspirations.

Aspire Worktops

Aspire worktops are available in a variety of profiles and shapes. Unless you are ordering online when ordering worktops you must always quote the worktop type and supply a diagram showing the size required, direction of the grain, edges to be profiled and type of profile. If no profile is specified the standard one will be used.

Standard Worktops

Worktop Edged All Round | Worktop Edged on Front | Worktop Edged on Front and Left | Worktop Edged on Front and Right | Worktop Edged on Front, Right and Left

Left Angled Worktops

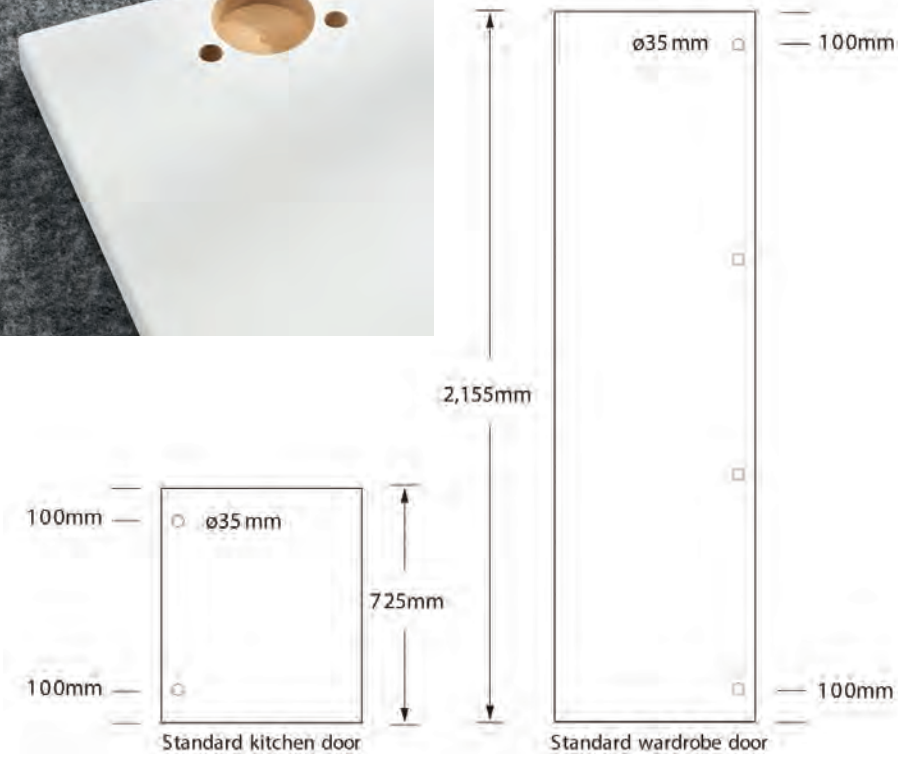
Left Angled Worktop Edged on Front | Left Angled Worktop Edged on Front and Left | Left Angled Worktop Edged on Front and Right | Left Angled Worktop Edged on Front, Right and Left

Right Angled Worktops

Right Angled Worktop Edged on Front | Right Angled Worktop Edged on Front and Left | Right Angled Worktop Edged on Front and Right | Right Angled Worktop Edged on Front, Right and Left

Aspire Drilling

Aspire doors are offered with a hinge hole drilling service meaning doors can be ordered ready to go direct to site without the need for unwrapping, saving you time and avoiding potential damages. As standard doors are available drilled 100mm from the top and bottom, on larger doors the extra holes are divided equally between the remaining space.
A bespoke service is also available whereby you can specify up to 4 hinge hole locations.



Aspire Vinyl Wrapped Accessories

All accessories are available in any colour from the Aspire range. Most of them are available in a variety of edge profiles to match each door style and either made-to-measure or in a range of sizes. Full information can be found by using our online ordering system.

Plinth

- Available in a variety of edge profiles.

Aspects Optima

Aspects Optima is an evolving collection which includes every one of our hundreds of 18mm MFCs. Powered by our online optimiser, users can input component sizes and it will create an instant price. Pricing is based on the number of sheets and amount of edging used for each order, providing optimal results and minimum waste every time. Users can also benefit from the custom label option, where each separate component can be given its own reference, making it easier to identify each item on site. It even creates a visual representation of the full sheet of the chosen design to help users get the most for their money.

EGGER kronospan

Powered by our online optimiser, users can input component sizes and it will create an instant price. Pricing is based on the number of sheets and amount of edging used for each order, providing optimal results and minimum waste every time.

Take the pain out ofcutting your own board and let HPP do it for you! Our Cut & Edged range is available off the shelf and is constantly updated to contain the most popular sizes and décors.

SCAN QR CODE to see the latest range online.

Slat Wall.

The Slat Wall System, an innovative interlocking modular system. Easy and adaptable to fit, with benefits over standard boards with glued profiles:

- A quick and easy method with the highest, on-trend aesthetic finish
- Reduced waste potential: as the Slat Wall System is made up of single elements that can be specified exactly according to the space available, there is less chance of excess sheet panels remaining that would otherwise go to waste
- Smaller sections/components make for easier transportation and handling, with less potential for damage
- Presence of the cavity between the wall and Slat Wall profile allow cables to be hidden behind the panelling or for thermal/acoustic insulation panels to be inserted behind
- The Classic Square has a stave depth of 2cm, not available with a milled and covered panel system. The Mini Slat has a depth of only 1cm

Egger Decorative Collection 24+

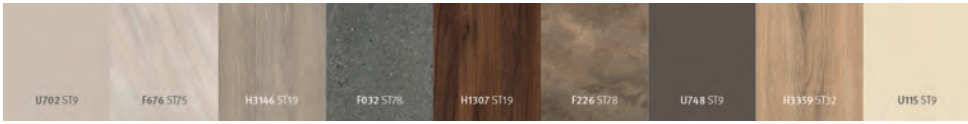
Egger's Decorative Collection 24+ expands the options and solutions available to you and your customers. It features exciting new additions, favourite designs, eco-friendly products, and a suite of digital tools. This comprehensive collection provides everything necessary to fulfil your customers' design desires. With elegant and adaptable woodgrains, realistic stone imitations, essential metallic and textile accents, and fresh solid colours, it presents endless possibilities and combinations.

- More than 230 décor combinations
- 201 Eurodekor décors in matching materials
- 82 new Eurodekor décor combinations
- 39 worktop décor combinations
- 7 new textures
- New Feelwood surfaces
- Textures for material and metal décors
- Matt and high-gloss surfaces

Egger Standard MFC.

One of the leading wood based panel producers in Europe, Egger have manufacturing plants worldwide and operate globally. Investing in the most advanced technology available helps maintain their position at the forefront of the market ensuring they deliver high quality products every time.

Eurodekor melamine faced chipboard is available in a large variety of décors.



Egger Feelwood.

Synchronised pore technology brings Feelwood to life by matching the woodgrain features with the texture plate. From traditional brushed woodgrains with hearty knots and cracks, to softer, elegant textures, the Feelwood collection is a striking, cost-effective alternative to real wood or veneer. Benefits include:

- Fade and scratch resistant
- Easy to clean and maintain
- Authentic look and feel
- Matching products
- Cost effective alternative to real wood or veneer

Egger PerfectSense.

Open up new possibilities with PerfectSense Premium Lacquered Boards in Premium Matt and Premium Gloss.

Now with enhanced quality, PerfectSense Lacquered Boards in Premium Matt and Premium Gloss are suitable for horizontal application, for high-end furniture and interior design.

Egger's reflective Premium Gloss boards boast a dazzling high-shine surface that makes rooms feel more spacious. The mirror-like lacquer finish gives a high-end look of glass with striking reflection.

On-trend Premium Matt boards offer a velvety-smooth surface that evokes understated luxury. With its anti-fingerprint and scratch-resistant properties, Egger's matt lacquered MDF panels offer a solution that is both stylish and practical.

Egger TM9.

PerfectSense TM9 combines state-of-the-art UV lacquering technology with a carbon negative chipboard core to produce a cost-effective surface that has a high-end look.

The velvety-warm feel and anti-fingerprint properties are a result of an advanced Excimer surface process, giving the TM9 products a unique surface micro-texture.

The structure of PerfectSense TM9 lacquered boards allows them to be recycled at the end of their life cycle and used in the production of new boards. As 34% of a panel is made from recycled wood and a further 37% made from sawmill by-products, it means that TM9 boards can be recycled along with other household wood waste at local waste recycling centres after use.

As well as being resistant to fingerprints, the TM9 micro-texture allows for reduced cleaning effort, antibacterial properties (in accordance with ISO 22196 (JIS Z 2801) and means the boards are resistant to conventional stains, many cleaning agents and dry/humid heat.

Kronodesign®

Standard MFC.

The Kronospan melamine range offers a multitude of inspiring contemporary and traditional decors. Kronospan MFC can be used in many applications including furniture, shopfitting, kitchens, bedrooms, hotels, caravans and many more.

Kronospan Trends.

Introducing Trends Origin Stories, Kronospan's latest addition to their world-leading range of wood-based decorative panels. The products in this collection have been conceived to answer the demands of upcoming trends and with Kronospan at the core, quality is assured.

Key Features:

- A collection created to inspire
- Bringing originality and innovation
- Answering the demands of upcoming trends
- 41 décors unique to Kronodesign
- Kronospan quality all the way through
- Matching edging tapes available

Kronospan Mirror Gloss.

Mirror Gloss is a Melamine Faced board with an unsurpassed gloss surface produced by state-of-the-art lamination technology. Mirror Gloss panels are commonly used in home & office furniture applications, luxury kitchens, bathrooms and retail spaces.

Kronospan Pure Wood.

Pure Wood (PW) from Kronospan: a range of stunningly realistic timber effects with a semi-matt finish that looks uncannily like a lightly polished veneer, but with all the manufacturing benefits of Melamine Faced Boards; strength, reliability, easy to work and a totally consistent performance.

Kronospan Colour Woodgrain.

The Kronospan Colour Woodgrain range offers the look and feel of painted wood with the proven durability of melamine finished board, in a wide selection of contemporary colours on a textured wood grained surface.

By blending the consistency and workability of melamine faced board with a realistic timber finish, on-trend neutral shades, plus the ever popular black, it is possible to have the look without the hassle.

Kronospan Trend Collection 25/27.

Created to inspire designers, architects, and craftsmen, the Kronodesign Trend Collection 25/27 offers a strong commercial edge. It is conceived to answer market demands and predict upcoming trends that reflect both the spirit of today and the promise of tomorrow.

The Collection includes the latest Pearlsand (PD) structure: a fine-grained structure, with a sand-like surface for a matt and elegant overall effect. This is Kronospan's most scratch-resistance finish texture, ideal for applications prone to daily wear and tear.

PVC Edged Doors & Cut-To-Spec.

Every Kronospan décor is available as PVC edged door components through HPP's Aspects Optima service as well as Cut-To-Specification strip work using the online Cut-To-Spec optimisation service.

Decorative Panels Acrylic Gloss MDF.

Each board is faced on one side with Senoplast acrylic high gloss which is recognised as the premium product within the sector, combining the look of a solid surface acrylic without the prohibitive cost.

Excellent scratch, scour and high UV resistance. Perfect for all types of furniture in the kitchen, bathroom, living room, bedroom or office.

SCAN QR CODE
to see the latest range online.

Decorative Panels SERICA PVC Super Matt MDF.

A super matt PVC surface which is extremely robust with a silky matt surface finish. SERICA is designed to cover all types of furnishings in homes, offices and retail environments. The foil is laminated to both sides of the board, which is not currently available on many other super-matt boards in the market. The on-trend, contemporary colour palette incorporates solid colour right through to the core, so there are no unsightly joint lines.

Encompassing both anti-scratch and thermal healing technology, this super-matt, low-light reflectivity material is also anti-fingerprint and in the case of micro-scratches, SERICA can be easily repaired by simply using an iron or hair dryer to renovate the surface.

Available in Aspects.

Both Decorative Panels Acrylic Gloss & SERICA Super Matt are available as part of our Aspects PVC edged door range.

1. INTERPRETATION

1.1. In these conditions:
'BUYER' means the person who accepts a quotation of the Seller for the sale of the Goods or whose order for the Goods is accepted by the Seller. 'GOODS' means the goods (including any instalment of the goods) which the Seller is to supply in accordance with these Conditions.
'SELLER' means Hill's Panel Products Limited (registered in England and Wales under number 2563787)
'CONDITIONS' means the standard terms and conditions of sale set out in the document and (unless the context otherwise requires) includes any special terms and conditions agreed in writing between the Buyer and the Seller.
'CONTRACT' means the contract for the purchase and sale of the Goods.
'WRITING' includes telex, cable, facsimile transmission and comparable means of communication.
1.2. Any reference in these Conditions to any provision of a statute shall be construed as a reference to that provision as amended re-enacted or extended at the relevant time.
1.3. The headings in these Conditions are for convenience only and shall not affect their interpretation.

2. BASIS OF THE SALE

2.1. The Seller shall sell and the Buyer shall purchase the Goods in accordance with any written quotation of the Seller which is accepted by the Buyer, or any written or verbal order of the Buyer which is accepted by the Seller, subject in either case to these Conditions, which shall govern the Contract to the exclusion of, any other terms and conditions subject to which any such quotation is accepted or purported to be accepted or any such order is made or purported to be made, by the Buyer.
2.2. No variation to these Conditions shall be binding unless agreed in Writing between an authorised representative of the Buyer and any director of the Seller
2.3. The Seller's employees or agents are not authorised to make any representations concerning the Goods unless confirmed by any director of the Seller in Writing.
In entering into the Contract the Buyer acknowledges that it does not rely on, and waives any claim for breach of, any such representation which are not so confirmed.
2.4. Any advice or recommendation given by the Seller or its employees or agents to the Buyer or its employees or agents as to the storage, application or use of the Goods which is not confirmed in Writing by any director of the Seller is followed or acted upon entirely at the Buyer's own risk, and accordingly the Seller shall not be liable for any such advice or recommendation which is not so confirmed.
2.5. Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the Seller shall be subject to correction without any liability on the part of the Seller.

3. ORDERS AND SPECIFICATIONS

3.1. No order submitted by the Buyer shall be deemed to be accepted by the Seller unless and until confirmed by the Seller's authorised representative.
3.2. The Buyer shall be responsible to the Seller for ensuring the accuracy of the terms of any order (including any applicable specification) submitted by the Buyer, and for giving the Seller any necessary information relating to the Goods within a sufficient time to enable the Seller to perform the Contract in accordance with its terms.
3.3. The quantity, quality and description of and any specification for the Goods shall be those set out in the Seller's quotation (if accepted by the Buyer) or the Buyer's order (if accepted by the Seller).
3.4. No order which had been accepted by the Seller and on terms that the Buyer except with the agreement in full against all loss (including loss of profit), costs, (including the cost of all labour and materials used), damages, charges and expenses incurred by the Seller as a result of cancellation.

4. PRICE OF GOODS

4.1. Prices quoted are correct at the time of printing. We may vary or amend our prices at any time.
4.2. The Seller reserves the right, by giving notice to the Buyer at any time before delivery, to increase the price of the Goods to reflect any increase in the cost to the Seller which is due to any factor beyond the control of the Seller (such as, without limitation, any foreign exchange fluctuation, currency regulation, alteration of duties, significant increases in the cost of labour, materials or other cost of manufacture), any change in delivery dates, quantities or specifications for the Goods which is requested by the Buyer, or any delay caused by any instructions of the Buyer or failure of the Buyer to give the Seller adequate information or instructions.
4.3. Unless otherwise agreed between the Buyer and the Seller, all prices are given by the Seller on an ex works basis, and where the Seller agrees to deliver the Goods otherwise than at the Seller's premises, the Buyer shall be liable to pay the Seller's charges for transport, packaging and insurance.
4.4. The price is exclusive of any applicable value added tax, which the Buyer shall be additionally liable to pay to the Seller.

5. TERMS OF PAYMENT

5.1. Subject to any special terms agreed in Writing between the Buyer and the Seller, the Seller shall be entitled to invoice the Buyer for the price of the Goods on or at any time after the delivery of the Goods, unless the Goods are to be collected by the Buyer or the Buyer wrongfully fails to take delivery of the Goods, in which event the Seller shall be entitled to invoice the Buyer for the price at any time after the Seller has notified the Buyer that the Goods are ready for collection or (as the case may be) the Seller has tendered delivery of the Goods.
5.2. The Buyers shall pay the price of the Goods within 30 days of the Seller's invoice not withstanding that delivery may not have taken place and the property in the Goods has not passed to the Buyer. The time of payment of the price shall be of the essence of the Contract. Receipts for payment will be issued only upon request.
5.3. If the Buyer fails to make any payment on the due date then, without prejudice to any other right or remedy available to the Seller, the Seller shall be entitled to:
5.3.1. cancel the contract or suspend any further deliveries to the Buyer.
5.3.2. appropriate any payment made by the Buyer to such of the Goods (or the goods supplied under any other contract between the Buyer and the Seller) as the Seller may think fit (notwithstanding any purported appropriation by the Buyer); and
5.3.3 charge the Buyer interest (both before and after any judgement) on the amount unpaid, at the rate of 2 per cent per annum above Yorkshire Bank base rate from time to time, until payment in full is made (a part of a month being treated as a full month for the purpose of calculating interest).
5.3.4 all collection costs incurred will be charged to the buyer.

6. DELIVERY

6.1 Delivery of the Goods shall be made by the Buyer collecting the Goods at the Seller's premises at any time after the Seller has notified the Buyer that the Goods are ready for collection or, if some other place for delivery is agreed by the Seller, by the Seller delivering the Goods to that place.
All claims of short delivery must be notified to the Seller within 24 (Twenty four) hours of the time of delivery.
6.2. Any dates quoted for delivery of the Goods are approximate only and the Seller shall not be liable for any delay in delivery of the Goods howsoever caused. Time for delivery shall not be of the essence unless previously agreed by the Seller in Writing.
The goods may be delivered by the Seller in advance of the quoted delivery date upon giving reasonable notice to the Buyer.
6.3. Where the Goods are to be delivered in instalments, each delivery shall constitute a separate contract and failure by the Seller to deliver any one or more of the instalments in accordance with these Conditions or any claim by the Buyer in respect of any one or more instalments shall not entitle the Buyer to treat the Contract as a whole as repudiated.
6.4. If the Seller fails to deliver the Goods for any reason other than any reason beyond the Seller's reasonable control or the Buyer's fault, and the Seller is accordingly liable to the Buyer, the Seller's liability shall be limited to the excess (if any) of the cost to the Buyer (in the cheapest available market) of similar goods to replace those not delivered over the price of the Goods.
6.5. If the Buyer fails to take delivery of the Goods or fails to give the Seller adequate delivery instructions at the time stated for delivery (otherwise than by reason of any cause beyond the Buyer's reasonable control or by reason of the Seller's fault) then, without prejudice to any other right or remedy available to the Seller, the Seller may;
6.5.1 store the Goods until actual delivery and charge the Buyer for the reasonable costs (including insurance) of storage;
6.5.2. sell the Goods at the best price readily obtainable and (after deducting all reasonable storage and selling expenses) account to the Buyer for the excess over the price under the Contract or charge the Buyer for any shortfall below the price under the Contract.

7. RISK AND PROPERTY

7.1. Risk of damage to or loss of the goods shall pass to the Buyer;
7.1.1. in the case of Goods to be delivered at the Seller's premises, at the time when the Seller notifies the Buyer that the Goods are available for collection or 7.1.2. in the case of the Goods to be delivered otherwise than at the Seller's premises, at the time of delivery or, if the Buyer wrongfully fails to take delivery of the Goods, the time when the Seller has tendered delivery of the Goods.

7.2. Notwithstanding delivery and the passing of risk in the Goods, or any other provision of these Conditions, the property in the Goods shall not pass to the Buyer until the Seller has received in cash or cleared funds payment in full of the price of the Goods and all other goods agreed to be sold by the Seller to the Buyer for which payment is then due.
7.3. Until such time as the property in the Goods passes to the Buyer, the Buyer shall hold the Goods (and any products manufactured from them) as the Seller's fiduciary agent and bailee, and shall keep the Goods and any such products as aforesaid separate from those of the Buyer and third parties and properly stored, protected and insured and identified as the Seller's property. Until that time the Buyer shall be entitled to resell or use the Goods (or any such products as aforesaid) in the ordinary course of its business, but shall account to the Seller for the proceeds of sale or otherwise of the Goods (or any such products aforesaid), whether tangible or intangible, including insurance proceeds, and shall keep all such proceeds separate from any moneys or property of the Buyer and third parties and, in the case of tangible proceeds, properly stored, protected and insured. Where the Buyer so resells or uses the Goods as aforesaid, this will not create any privity of contract between the Seller and any third party. The Buyer will provide details of all further manufacture using the Goods and of all such resales to the Seller on demand and will similarly on demand assign to the Seller the benefit of any claims it may have against any purchaser in any resale transaction.
7.4. The Seller shall account to the Buyer for the proceeds of sale of products manufactured from the Goods (following receipt of such proceeds by the Seller) to the extent that such proceeds exceed the total amount of monies due and payable by the Buyer to the Seller for any goods supplied by the Seller to the Buyer
7.5. Until such time as the property in the Goods passes to the Buyer (and provided the Goods are still in existence and have not been resold), the Seller shall be entitled at any time to require the Buyer to deliver up the Goods to the Seller and, if the Buyer fails to do so forthwith, to enter upon any premises of the Buyer or any third party where the Goods are stored and repossess the Goods without any liability on the Seller for any damage to property occasioned thereby.
In the event that the exercise by the Seller of the rights conferred by this Clause results in the Seller repossessing Goods for which the Buyer has paid, the Seller may set off against any sums which become due from it on that basis, any sums from the Buyer in respect if other contracts.
7.6. The Buyer shall not be entitled to pledge or in any way charge by way of security for any indebtedness any goods which remain the property of the Seller, but if the Buyer does so all moneys owing by the Buyer to the Seller shall (without prejudice to any other right or remedy of the Seller) forthwith become due and payable.
7.7. The seller will not accept any liability for damage to any goods that have been part processed or machined by the Buyer in any way.

8. SELLER'S LIABILITY

8.1. Subject as expressly provided in these Conditions, and except where the Goods are sold to a person dealing as a consumer (within the meaning of the Unfair Contact Terms act in 1977) all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permitted by law.
8.2. Where the Goods are sold under a consumer transaction (as defined by the Consumer Transactions (Restrictions on Statements) Order 1976) the statutory rights of the Buyer are not affected by these Conditions.
8.3. Subject to Condition 8.4. below, any claim by the Buyer which is based on any defect on the quality or condition of the Goods or their failure to correspond with specification shall (whether or not delivery is refused by the Buyer) be notified to the Seller within 7 days from the date of delivery or (where the defect or failure not apparent on reasonable inspection) within a reasonable time after discovery of the defect or failure. If delivery is not refused, and the Buyer does not notify the Seller accordingly, the Buyer shall not be entitled to reject the Goods and the Seller shall have no liability for such defect or failure, and the Buyer shall be bound to pay the price as if the Goods had been delivered in accordance with the Contract.
8.4. The liability of the Seller for any defect in the quality or condition of the Goods or their failure to correspond with specification is subject to the following conditions:-
8.4.1. the Seller shall be under no liability in respect of any defect arising from any specification supplied by the Buyer.
8.4.2. the Seller shall be under no liability in respect of any defect arising from fair wear and tear, wilful damage, negligence, abnormal working conditions, failure to follow the Seller's instructions (whether oral or in writing), misuse or alteration or repair of the Goods without the Seller's approval;
8.4.3. the Seller shall be under no liability of the total price for the Goods has not been paid by the due date for payment;
8.4.4 such liability does not extend to parts, materials or equipment not manufactured by the Seller, in respect of which the Buyer shall only be entitled to the benefit of any warranty or guarantee as is given by the manufacturer to the Seller.
8.5. Where any valid claim in respect of any of the Goods which is based on any defect in the quality or condition of the Goods or their failure to meet specification is notified to the Seller in accordance with these Conditions, the Seller shall be entitled to replace the Goods (or the part in question) free of charge or, at the Seller's sole discretion, refund to the Buyer the price of the Goods (or a proportionate part of the price), but the Seller shall have no further liability to the Buyer.
8.6. Except in respect of death or personal injury caused by the Seller's negligence, the Seller shall not be liable to the Buyer by reason of any representation, or any implied warranty, condition or other term, or any duty at common law, or under the express terms of the Contract, for any consequential loss or damage (whether for loss or profit or otherwise), costs, expenses or other claims for consequential compensation whatsoever (and whether caused by the negligence of the Seller, its employees or agents or otherwise) which arise out of or in connection with the supply of the Goods or their use or resale by the Buyer, except as expressly provided in these Conditions.
8.7. The Seller shall not be liable to the Buyer or deemed to be in breach of the Contract by reason of any delay in performing, or any failure to perform, any of Seller's obligations in relation to the Goods, if the delay or failure was due to any cause beyond the Seller's reasonable control. Without prejudice to the generality of the foregoing, the following shall be regarded as causes beyond the Seller's reasonable control:
8.7.1. Act of God, explosion, flood, tempest, fire or accident;
8.7.2. war or threat of war, sabotage, insurrection, civil disturbance or requisition;
8.7.3. act, restrictions, regulations, bye-laws, prohibitions or measures or any kind on the part of any governmental, parliamentary or local authority;
8.7.4. import or export regulations or embargoes;
8.7.5. strikes, lock-outs or other industrial actions or trade disputes (whether involving employees of the Seller or of a third party);
8.7.6. difficulties in obtaining raw materials, labour, fuel, parts or machinery;
8.7.7. power failure or breakdown in machinery.

9. INSOLVENCY OF BUYER

9.1 This clause applies if:
9.1.1. the Buyer makes any voluntary arrangements with its creditors or becomes the subject of an administration order or (being an individual or firm) becomes bankrupt or (being a company) goes into liquidation (otherwise than for the purpose of amalgamation or reconstruction); or
9.1.2. an encumbrancer takes possession, or a receiver is appointed, of any of the property or assets of the Buyer, or
9.1.3. the Buyer ceases, or threatens to cease, to carry on business; or
9.1.4. the Seller reasonably apprehends that any of the events mentioned above is about to occur in relation to the Buyer and notifies the Buyer accordingly.
9.2 If this clause applies then, without prejudice to any other right or remedy available to the Seller, the Seller shall be entitled to cancel the Contract or suspend any further deliveries under the Contract without any liability to the Buyer, and if the Goods have been delivered but not paid for the price shall become immediately due and payable notwithstanding any previous agreement or arrangement to the contrary.

10. GENERAL

10.1 Any notice required or permitted to be given by either party to the other under these Conditions shall be in Writing addressed to that other party at its registered office or principal place of business or such other address as may at the relevant time have been notified pursuant to this provision to the party giving the notice.
10.2 No waiver by the Seller of any breach of the Contract by the Buyer shall be considered as a waiver of any subsequent breach of the same or any other provision.
10.3 If any provision of these Conditions is held by any competent authority to be invalid or unenforceable in whole or in part of the validity of other provisions in question shall not be affected thereby.
10.4. The Contract shall be governed by the laws of England.
