

**MORE FROM WOOD.**

**I am the next generation of MFC.  
I am ST27.**

I am a brand new way to achieve something special. An innovation, finished with an exquisite grain effect. I am modern, classic, on trend, ...a true representation of a favourite look. A key to unlocking potential.

**I am the next generation of MFC. I am ST27.**

## I am on trend

The need for longevity within interior design has seen an increase in demand for classic and contemporary painted finishes. Solid wood or veneered panels, painted in muted tones with a heritage feel, create elegant and timeless environments in the premium market segment.

## I am an innovation

With contemporary yet classic designs, especially painted timber doors, becoming increasingly popular, we have created ST27... a deep, natural texture designed to replicate this bespoke and timeless look for a fraction of the cost.

### **I am low maintenance**

Ideal for carcassing, end panels, plinths and doors instead of, or in combination with, solid wood and veneer, ST27 offers a low maintenance alternative that doesn't involve the time consuming work that cutting and working with veneers can do; nor the amount of waste.

**I am finished with an  
exquisite grain effect**

With the feel of true craftsmanship and quality ST27, available in either MFC or MDF, incorporates a meticulously-considered grain pattern that has been specifically designed for use with a palette of neutral solid colours (see overleaf) – producing a finish reminiscent of painted timber.

ST27 painting grade MDF grooved and sprayed

**I am able to be sprayed to any colour you like**

For specific colour requirements we offer a painting grade board. This is pre-textured but can be subsequently sprayed/painted to whatever the client or project demands.

*For technical details on spraying ST27 please see [www.egger.co.uk/ST27](http://www.egger.co.uk/ST27).*

*Painting grade ABS edging is available as 23 x 2mm (for 18mm panels) and 26 x 2mm (for 22mm panels) on 75m rolls.*

ST27 Painting Grade

W980 ST27 Platinum White

W1200 ST27 Porcelain

U104 ST27 Alabaster

U108 ST27 Vanilla

U702 ST27 Cashmere

U100 ST27 Mussel

**I am also available in pre-finished heritage colours**

10 muted colour tones are available which don't require any further treatment, other than edging. And as a melamine finish you can expect all the hard wearing properties you'd expect from a melamine board.

U717 ST27 Dakar

U708 ST27 Light Grey

U727 ST27 Stone Grey

U741 ST27 Lava

U961 ST27 Graphite

*All 10 decors are available from stock with matching 23mm x 0.8mm ABS edging on 75m rolls. This thinner edging provides a sleeker look.*

*All decors held in stock in 18mm MFC.*

**I am a key to unlocking potential**

ST27 could be used to enter a new market segment, enhance or protect margins, compete at a higher price point or gain market share ... how you use it is, of course, down to you.

ST27 represents the next generation of MFC.

**Don't get left behind.**
