

**MORE FROM WOOD.**

**I am a new way to achieve a high value look.  
I am ST27.**

I am a brand new way to achieve something special. An innovation, finished with an exquisite grain effect. I am modern, classic, on trend, ...a true representation of a favourite look. A key to unlocking potential.

**I am the next generation of the painted timber look. I am ST27.**

## I am on trend

The need for longevity within interior and commercial design has seen an increase in demand for classic and contemporary painted finishes. Solid wood or veneered panels, painted in muted tones with a heritage feel, create elegant and timeless environments.

**I am an innovation**

With the contemporary, yet classic, feel becoming increasingly popular we have created ST27... a deep, natural texture designed to replicate this bespoke and timeless look for a fraction of the effort and cost.

## I am low maintenance

Ideal for wall panelling, tables, shelving, gondola's, wardrobes ... in fact most types of furniture. Used instead of, or in combination with, solid wood and veneer, ST27 offers a low maintenance alternative that doesn't involve the time consuming work that cutting and working with veneers can do; nor the amount of waste.

**I am finished with an  
exquisite grain effect**

With the feel of true craftsmanship and quality ST27, available in either MDF or MFC, incorporates a meticulously-considered grain pattern that has been specifically designed for use with a palette of neutral solid colours – producing a finish reminiscent of painted timber.

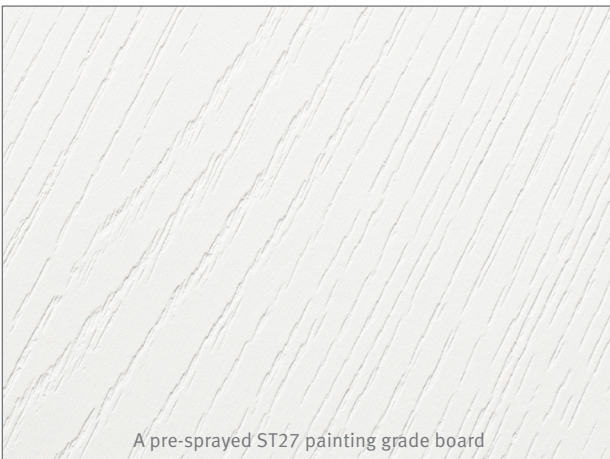

**I am able to be sprayed to any colour you like**

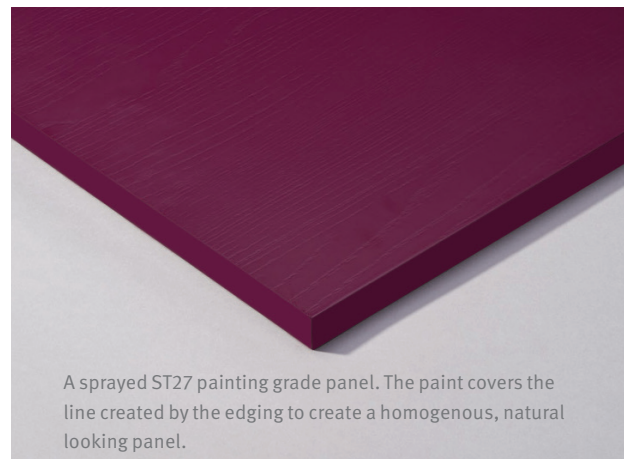

For specific colour requirements we offer a painting grade board. This is pre-textured but can be subsequently sprayed/painted to whatever the client or project demands.

*Painting grade ABS edging is available as 23 x 2mm (for 18mm panels) and 26 x 2mm (for 22mm panels) on 75m rolls.*

*For technical details on spraying ST27 please see [www.egger.co.uk/ST27](http://www.egger.co.uk/ST27)*

A pre-sprayed ST27 painting grade board

A sprayed ST27 painting grade panel. The paint covers the line created by the edging to create a homogenous, natural looking panel.

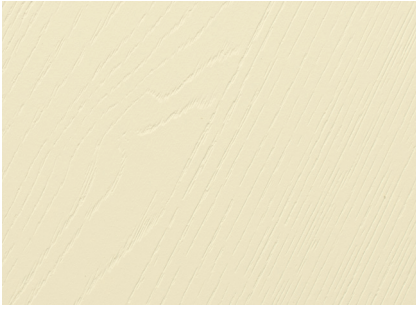

W980 ST27 Platinum White

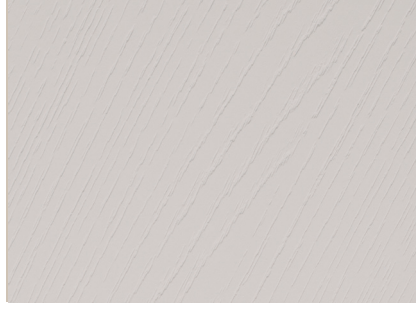

W1200 ST27 Porcelain

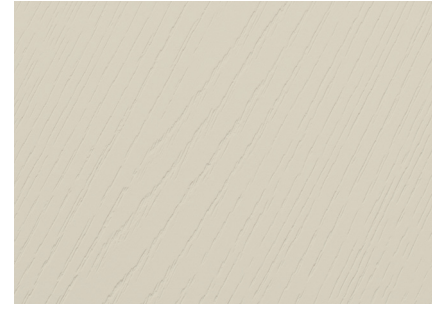

U104 ST27 Alabaster

U108 ST27 Vanilla

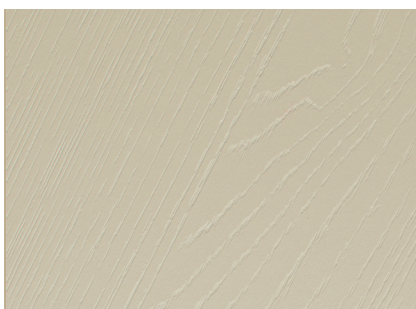

U702 ST27 Cashmere

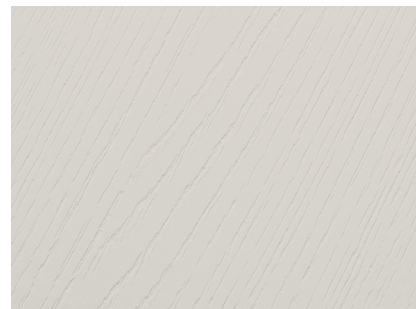

U100 ST27 Mussel

**I am also available in pre-finished heritage colours**

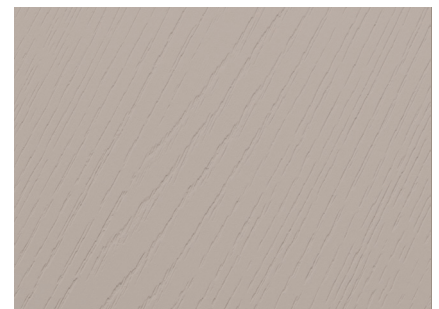

10 muted colour tones are available which don't require any further treatment, other than edging. And as a melamine finish you can expect all the hard wearing properties you'd expect from a melamine board, such as wear and impact resistance.

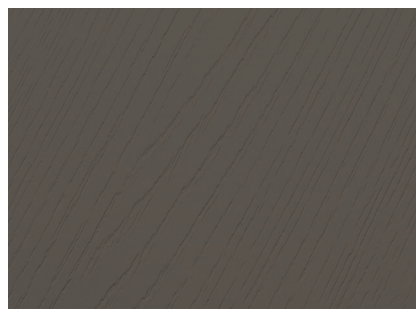

U717 ST27 Dakar

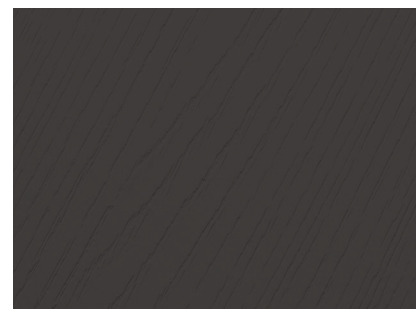

U708 ST27 Light Grey

U727 ST27 Stone Grey

U741 ST27 Lava

U961 ST27 Graphite

*All 10 decors are available from stock with matching 23mm x 0.8mm ABS edging on 75m rolls. This thinner edging provides a sleeker look.*

*All decors held in stock in 18mm MFC, with MDF available to order.*

U702 Cashmere

## I am a key to unlocking potential

Using ST27 instead of, or in combination with, veneer or solid wood could be the key to winning that tender, completing a job quicker or proposing a higher perceived value project ... how you use it is, of course, down to you.

ST27 represents the next generation of painted timber look.
