Wiring diagram (DuoFlex with the Remote control option):

Key Selling Points:

- Quick and easy installation - strips have 3M self adhesive backing
- Switchable between 2 colours, cool white (5000K) and warm white (2700K)
- Mix between cool white and warm white to create the desired effect
- Very versatile, use on plinths, under or above cabinets, around island units, under the worktops on handleless kitchens etc.
- Dimmable from 100% to 10% using the DuoFlex Remote Control
- One remote control will control up to 11 receivers
- Linkable. Create a continuous 6m run of DuoFlex on each receiver
