Product overview

The Link-S –Smart Controller is the perfect solution for controlling the lighting temperature of your kitchen.

The Smart Control has a lightweight design featuring multi functional controls that enable the user to choose the desired colour temperature, from a wide spectrum of (2700K-6500K) warm to cool white. It's robust design makes it suitable for any type of kitchen.

It also features an ON/OFF button as well as a variable dimmer function to find the perfect light level.

The integrated PIR features a day/night sensor which can control multiple lights within a kitchen when movement is detected. If no movement is detected, the light will switch off in increments of 16s, 180s or 600s depending on how the timer is programmed.

The Link-S Smart Controller is compatible with Sensio LED dimmers and Duoflex receivers. It can control multiple of these receivers within the 15m range.

The magnetic bracket ensures easy fastening and removal of the Smart Controller.
