

Product overview

The Edge Pro offers a superb light output and can transform a normal glass shelf into an illuminated shelf with the clip on U-shaped LED profile.

Using the Edge Pro in conjunction with the DuoFlex receiver and the 3-In-1 Remote Control brings the product to the forefront of modern technology, enabling the user to choose their desired colour temperature from a wide spectrum of 2700K-6500K.

Using Plug and play technology multiple fittings can be daisy chained together which provides a flexible system that can provide meaningful combinations to meet design demands.

The Edge Pro has also has an integrated diffuser which results in no visible diodes. It fits 4-8mm panes of glass and can be cut to length every 84mm.

Mechanical Specification

Dimensions (mm) L, W, D	Weight (g)	IP Rating
450 x 26 x 14	Net: 85 Gross: 126	IP20

Benefits

- LED technology for long service life
- Stylish and easy to install
- Ideal for glass
- Low wattage (energy saving)

Key Features

- Multi-functional, reduces multiple SKUs
- High light output
- Full spectrum of colour temperature
- Fits 4-8mm pane of glass
- Integrated diffuser

Technical Specification

Power	2.0 W
Voltage	24V
Number of LEDs	70
Light Output	200 lm
Colour Temperature	2700-6500K
Dimmable	Yes with the DuoFlex Receiver and 3-In-1 Remote Control
Cable Length	1.54m
Operating Temperature	5°C to 45°C
