Create the right impression

Feelwood

H1367 ST40

Create the right impression with Feelwood, EGGER's collection of strikingly realistic woodgrain reproduction decors. Feelwood decors offer a cost-effective, durable, high performance alternative to solid timber or real wood veneer. The range includes 27 decors across six textures in 18 mm Decorative Faced Chipboard, laminate and edging.

Synchronised pore technology brings Feelwood decors to life by matching the woodgrain features with the surface texture. Knots, deep cracks and grain patterns achieve an authentic touch, that is barely distinguishable from the real thing.

A coordinated finish can be achieved by using Feelwood alongside EGGER's other decorative products. Decors are available in matching board, laminate and edging, with some decors also featuring in the EGGER Worktop Collection.

BENEFITS

- Fade and scratch resistant
- Easy to clean and maintain
- Authentic look and feel
- Coordinating products
- Cost-effective alternative to real wood or veneer
- Antibacterial properties (tested according to JIS Z 2801/ISO22196)
