

THE
CROWN
FOR YOUR
KITCHEN

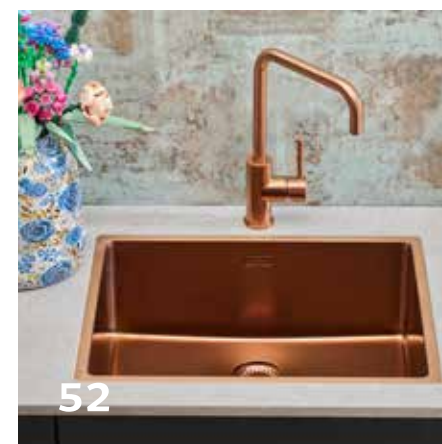

REGINOX STANDS FOR HIGH QUALITY AND INNOVATIVE
SINKS, TAPS AND WORKTOPS

Ever since 1976, Reginox has led the way in quality and innovation in sinks and worktops for the kitchen, project and housebuilder sectors. We design, develop and produce these products in-house, in numerous styles and configurations. We also supply matching taps and accessories.

LET US INSPIRE YOU

WITH OUR CONSTANTLY EVOLVING RANGE, WE ARE A MAJOR PLAYER IN THE NATIONAL AND INTERNATIONAL KITCHEN AND PROJECT MARKETS. ONE REASON FOR THIS IS THAT WE ALWAYS PAY CLOSE ATTENTION TO THE NEEDS AND TRENDS OF CONSUMERS AND KITCHEN PROFESSIONALS.

WE TAKE SERIOUSLY THE NEED TO CHOOSE HIGH-QUALITY MATERIALS AND PRODUCTION TECHNIQUES, GOING THE EXTRA MILE TO FULFILL OUR CUSTOMERS WISHES. SUSTAINABILITY IS ALSO ONE OF OUR TOP PRIORITIES, THROUGH ENERGY EFFICIENCY AND CHOOSING RECYCLABLE MATERIALS AND PACKAGING WHEREVER POSSIBLE.

DUTCH DESIGN

Reliable, Responsible
& Progressive

Reginox is located in Rijssen in the Eastern part of the Netherlands. It is where we develop and produce all our stainless-steel sinks. Reginox understands the importance of design and knows how to make the most beautiful products from stainless steel. We are always looking at new ways to improve our designs. Reginox sinks are straightforward and simple to install ensuring a sleek, modern finish no matter which installation method you choose.

IN-HOUSE PRODUCTION

Integrated sinks

Our integrated sinks can be installed in 3 ways: integrated (flush with the worktop), semi-integrated or undermount. All of our integrated sinks look stunning no matter the choice of installation, in any worktop with the exception of laminate for integrated and undermount fitting.

Inset sinks

Our inset sinks can be installed quickly and easily, as effective additions to any kitchen. To install these the fitter will turn the sink upside down, draw around the complete sink edge and cut 10 mm in from this template. All our sinks are provided with necessary clips and must be sealed with silicone sealant for a watertight finish.

Cabinet size

Due to specific cabinet sizes some sinks may not be suitable for your kitchen.

At Reginox we supply a wide range of sinks, each design in various sizes to fit every cabinet size, these vary from 400 mm to 1000 mm. The cabinet size is the available space underneath the worktop required for the bowl and other fixings only.

Technical Information

At Reginox we supply technical drawings for all our sinks and clear fitting instructions. We always recommend fitting is undertaken by a qualified professional.

Maintenance tips

- Clean the sinks with hot soapy water for everyday maintenance.
- Regular use of Inox Care to maintain your stainless-steel sink or worktop.
Rub this in using a microfiber cloth and buff out using a new, clean cloth once a week.
- No abrasive cleaners or sponges should be used on the sinks to avoid any visible stains, scratches or marks.

Stock availability

Some lines contained in this brochure have limited availability (marked with *), please call us for more accurate information.

Liability

Reginox is not liable for damage during installation or due to incorrect maintenance. A copy of our T&Cs are available upon request.

Where style is expected and demanded

You will see these characteristics in the New York range by Reginox. These sinks have a sleek and modern design, they are deep-drawn without welded or folded seams.

NEW YORK SINKS HAVE A 10 MM INTERNAL AND EXTERNAL RADIUS

STYLISH AS NEW YORK

SOME PEOPLE SEE NEW YORK AS ONE OF THE MOST VIBRANT AND MOST EXCITING CITIES IN THE WORLD. IT LEADS THE WAY WITH ITS STYLE, DESIGN AND TRENDS.

- 10 mm radius
- Comfort plug

Enhanced elegance with our New York Slim!

Thanks to the smart flush-mount installation, the edge is subtle and almost invisible, making the New York Slim the ideal choice as a replacement for an undermounted sink.

THE NEW YORK SLIM OWES ITS NAME WITH A SUBTLE NARROW RIM OF 6MM.

NEW YORK SLIM

OUR NEW YORK RANGE ALSO HAS A SLIM VERSION. AS THE LATEST ADDITION TO THE FAMILY, ITS SLEEK & SLIM DESIGN OFFERS A STYLISH SOLUTION WITHOUT COMPROMISING ON FUNCTIONALITY.

LOOK
AROUND
NEW YORK

Our New York family has a new member! Naturally, this New York is also deep drawn out of one piece of stainless-steel and provided with our trusted comfort plug. The New York Round has a horizontal spiral overflow and has a diameter of 42 cm. With this addition to our New York series we provide an even wider choice. You can install this sink as inset, semi-integrated (flush with the worktop) or undermount and therefore always a match!

NEW YORK'S NEAREST NEIGHBOUR

JUST AS NEW JERSEY IS THE GEOGRAPHICAL EXTENSION OF NEW YORK CITY, THE NEW JERSEY LINE IS AN EXTENSION OF OUR BESTSELLER: THE NEW YORK SINK.

The New Jersey is also a very modern design with an internal and external radius of 10 mm and a deep-drawn plug. The difference lies in the slightly narrower horizontal depth (37 cm instead of 40 cm), this means the New Jersey makes it even easier to fit taps in worktops of 60 cm deep.

HELLO HOUSTON

THESE SEAMLESS DEEP-DRAWN SINKS HAVE A SLEEK APPEARANCE AND, THANKS TO THEIR ATTRACTIVE PRICING, ARE IDEAL FOR THE PROJECT MARKET.

As with many of our other sinks the Houston is deep-drawn, with a 200 mm bowl depth which adds durability and sustainability to this already appealing range. A diverse range with diverse applications!

Attractive,
flexible and
affordable

COLORADO COMFORT

WHERE PRACTICALITY
MEETS DIVERSITY

EASY TO
CLEAN AND
MAINTAIN

Easy to clean

This sink promotes a simplistic, refined design, with a sleek horizontal overflow and a polished finish. Because of the deep-drawn manufacturing process the Colorado has no seams or edges. The integrated comfort waste also means there is less chance of leaks and is an easy to clean product.

SINK IS
COMPLETELY
SEAMLESS.

PRACTICAL AND STYLISH ASPEN

WANT TO CREATE MORE WORKSPACE IN THE KITCHEN? THE ASPEN OFFERS THIS AND MANY OTHER POSSIBILITIES. THE FREE STANDING DRAINER IS VERSATILE AND CAN BE MOUNTED ON TOP OF THE SINK AS A PARTIAL COVER PLATE, EXTENDING THE WORKTOP.

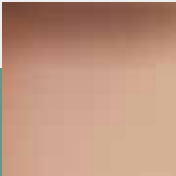

COLOURFUL NEW YORK

THE PVD COLOURS OF OUR NEW YORK SINKS HAVE BEEN UPDATED!
THE WELL-KNOWN NEW YORK SERIES OFFERS FOUR STYLISH COLOUR VARIATIONS,
MADE POSSIBLE BY ADVANCED PVD TECHNOLOGY.

These colours have been created via Physical Vapour Deposition (PVD) technology, using vapour deposition to apply a special coating to the stainless steel. This technology enables some fantastic customization. The New York PVD sinks are excellently suitable for combination with the PVD taps Taravo and Salina. Choose from Gun Metal II, Copper II or Gold II and give any kitchen a unique, luxurious look. These coloured sinks are available in multiple sizes, including a 18x40, 34x40, 40x40, 50x40 and 34x40 + 18x40 sink.

The New York sinks combine quality, comfort and innovation. They feature overflows and comfort plugs in matching colours and are renowned for their modern 10mm radius. What's more, during the deep-draw process, a run-off is pressed into the bottom to ensure water drains away of its own accord.

REGI-GRANITE

THE POWER OF GRANITE

ATTRACTIVE TO THE EYE AND INVITING TO TOUCH

Our Regi-granite ranges

For many years Reginox has proudly crafted two distinctive Regi-granite ranges, comprised of Elite and Elegance. The combination of the two ranges means that we can offer to you, one of the most comprehensive ranges of composite sinks available in the U.K. Mixing colours, composite materials, sink configurations and designs allows us to present a fantastic offer, covering all price points from entry level to true high end. We are proud of this range, of products and are confident that you will be too.

Our Company

Reginox is and always has been committed to achieving consistent technological advances working with composite granite materials. With a strong link between our past and the future we pride ourselves on constant innovation and uncompromising quality. With a dedication to always presenting the highest quality possible, you can be assured any product you purchase from Reginox will always fulfil and satisfy everything that you want, and our regi-granite ranges are a perfect addition to any offering. The range of colours, designs and materials is vast, with comprehensive guarantees. This means that Reginox can offer a solution for whatever sink you require.

Elite range

Here at Reginox we have a continual program of innovation in regard to the materials used in the manufacturing of granite sinks and also a strong focus on eco sustainability principles. In the endless pursuit of excellence and with unending research, Reginox has created a world class selection of materials to offer to you the customer. Please see below for more details on the amazing range of materials available to you when you purchase an Elite granite sink from Reginox.

Synteq

Our experience and innovative technology have helped us to create the Synteq material which redefines the standards for composite sinks. It is recognisable by its ease of cleaning with a smooth surface and sleek models, help to provide high resistance to thermal shock and impact, abrasion and UV radiation. With its vivid, deep and intense colour finish, it provides the perfect high quality addition to any kitchen. With a zero-porous water and stain repellent surface, Synteq ensures resistance to staining agents. Our Synteq sinks are a must have for your kitchen.

SOFT TOUCH

An ultra-compact, smooth and soft surface with an excellent structural core for a new tactile experience. With a non-porous composition, they are not only durable but sustainable and safe.

HD COLOURS

100% high definition for an incredible visual experience with intense matte colours. From optical white to matte black and light grey, each Synteq colour is pure, intense and deep.

FAST CLEAN

Living the everyday has never been so exciting thanks to an innovative and exclusive material extremely easy to clean. Synteq is NSF certified and is suitable for contact with food. Alluring, hygienic and easy to clean, it is a material where every micro-particle counts.

Alteq

Our Alteq range of sinks are made from a composition of natural granite and acrylic resin, made to exploit the natural essence of quartz in the kitchen. Created through a specialized process, using fully coloured granite particles our Alteq sinks are timeless, durable and versatile, with a high resistance to shock and temperature changes. Our 3 easy to clean models are suitable for food contact and available in our classic white and cream colours, their textured surface combines the appearance of natural stone and performance. And, also available in our black speck and titanium speck, with metal particles to give an added dimension to the appearance and finish with a metallic effect.

NATURAL APPEAL

The metallic textures of black speck and titanium speck make the material particles stand out adding a feature to your kitchen. Or the white and cream finish provide the surfaces with a natural stone classic aesthetic.

QUARTZ RESISTANCE

A material that brings out the best technical qualities of quartz: high resistance to high temperatures and to the most violent shocks.

TIMELESS BEAUTY

With a timeless design and strong quartz combination, Alteq is the perfect combination of strength and versatility making it a durable and beautiful product that will stand the test of time.

These sinks are made from ceramic in fireclay ovens, meaning they are superior in strength and have a high glossy finish. Due to this manufacturing process these sinks do have a tolerance either way. Our ceramic range has a wide range of variety from inset sinks with a drainer available in white to undermount sinks without drainer.

REGI - CERAMIC

OUR CERAMIC SINKS ARE A CONTEMPORARY ALTERNATIVE TO OTHER MATERIALS IN OUR RANGE AND CAN BE AN EFFECTIVE ADDITION TO ANY KITCHEN.

With such emphasis on excessive landfill issues and often reduced refuse collection schedules, a waste disposal unit can instantly help remove food waste and smells from leftovers as well as being kind on the environment by reducing the amount of methane gas and unwanted greenhouse emissions. With four models to choose from and varying levels of specification, price points and all carrying the trusted Reginox brand this range is a welcome addition to our product portfolio.

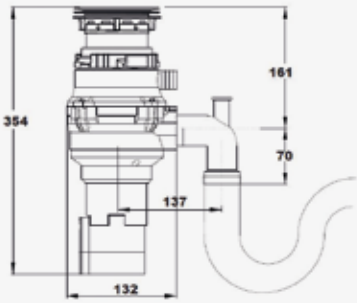

WASTE DISPOSAL UNITS

INTRODUCED RECENTLY, THE NEW RANGE OF WASTE DISPOSAL UNITS FROM REGINOX ARE MANUFACTURED BY ONE OF THE WORLDS MOST RECOGNISED BRANDS. FEATURING HIGH QUALITY MOTORS AND PREMIUM COMPONENT PARTS WHICH SET THEM APART FROM OTHER LEADING BRANDS, THEY ARE DESIGNED TO BE QUIET, EFFICIENT AND HIGHLY RELIABLE.

- 0.75 horse power
- 3 year warranty

Space saving

This unique space saving design incorporates a 'none return valve' which removes the need for a bulky trap. It takes the pipework to the back of the cabinet meaning you can save space which is otherwise wasted by a traditional syphon.

Our Panama is suitable for any type of sink, with its modern, simple design can make a huge difference to any kitchen.

A COMPLETE
WASTE SYSTEM

PANAMA

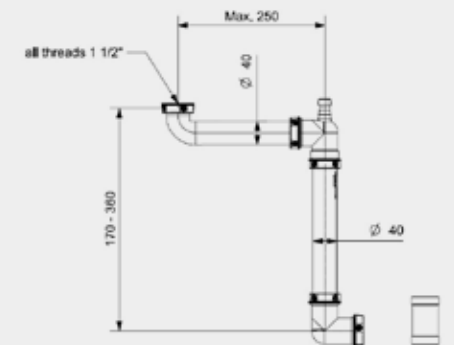

THE SMARTEST WASTE SYSTEM

THE SPACE SAVING WASTE IS A CUTTING-EDGE DESIGN THAT HELPS TO
UTILISE THE SPACE UNDER YOUR KITCHEN SINK.
