Product code:

SE20121C0 - Opus LED Reading Light - Cool White - Pack of 1
 SE20121C1 - Opus LED Reading Light - Cool White - Pack of 2

Dimensions: (mm/inches)

Key Selling Points:

- The brightest of the Sensio reading light range; high powered LED.
- Built-in driver for ultimate ease of installation.
- The 350mm flexible arm makes it simple to adjust the position of the light.
- The fitting has a small push switch on the top of the light head, making it simple to switch the light on/off as required.
- Low energy consumption. Each fitting runs at only 1.7W.
- The 10 degree beam angle means the light source is very direct.
- The small size of the light head makes for a discreet, powerful task light.
- Quick and simple to install. Either hard-wire or connect to a 3-pin plug top and connect directly to the mains supply - no need for an external driver.
